involved in a thriller or horror of some kind. Then Britney draws out Addie's life and you can't but wonder how she'll she might have gotten there. Good job, Britney! I really enjoyed it even though I was sceptic in the beginning. (The first 100 or so pages are crucial to understand the characters' development)0 von 0 Kunden fanden die folgende Rezension hilfreich. ber den Autor und weitere Mitwirkende Britney King writes domestic suspense novels and psychological thrillers set in suburbia. She is currently writing three series and several standalone novels. The *Bedrock* series (psychological/domestic/romantic thriller) features an unlikely heroine who should have known better. Turns out, she didn't. Thus she finds herself tangled in a messy, dangerous, forbidden love story and face-to-face with a madman hell-bent on revenge. The series has been compared to *Fatal Attraction*, *Single White Female*, and *Basic Instinct*. The *Water Trilogy* (psychological/domestic/romantic thriller) follows the shady love story of unconventional married couple he's an assassin she kills for fun. It has been compared to a crazier version of *Mr. and Mrs. Smith*. The *With You* series (romantic suspense) is a coming of age, friends to lovers, second chance (plus a few) love story about unlikely friends who travel the world; trying to find themselves, together and apart. It has been compared to *Love, Rosie*. *Around The Bend*, is a heart-pounding standalone (romantic suspense/domestic/psychological thriller), which traces the journey of a well-to-do suburban housewife, and her life as it unravels, thanks to the secrets she keeps. If she were the only one with things she wanted to keep hidden, then maybe it wouldn't have turned out so bad. But she wasn't. Britney lives in Austin, Texas with her husband, children, two dogs, and one ridiculous cat. She enjoys hearing from readers and would love it if you would connect with her at
