Recommended.Von The Wizard of OzI must say I read this author's work for the incredible descriptions of her Middle Eastern worlds as much as anything else. If you think all love stories are the same, know that not all worlds are. This is a great story set in a wonderfully described world by an author with an incredible vision.0 von 0 Kunden fanden die

Set in Pakistan, it's the story of a young woman who meets a man online. It's a glimpse into a country that is constantly in the news, but more importantly the young woman's feelings about the man she meets online are universal to all young women. It's also a fascinating look into sites available online - I didn't know they existed. Flawlessly written, the book has it all - characters who have secrets that make you want to read more about them, an exotic land, and a plot that demands to be read! I recommend this to everyone who enjoys a good read, no matter what one's genre preference is. 0 von 0 Kunden fanden die folgende Rezension hilfreich. An internet romance blooms in modern Pakistan Von Convoke "Before Time (The Time Trilogy Book 1)" by Xunaira J, is the first in a new series set in modern Pakistan, the first book of its sort I have read. From the very first pages, as an internet romance leads our heroine to adventure, this book is multi-faceted, more than a simple romance. It's a colorful, exciting genre-mixing story with an engaging story line. Join Onaiza Shahid as she discovers what may be the lover of her dreams on line... Wonderfully realized, this first book in a series is completely satisfying on its own, but I'm glad to learn there will be more.

Kurzbeschreibung His eyes told her what his tongue could not. Nineteen-year-old Onaiza Shahid is a loner and a dreamer, bookish and socially isolated. A chance ramble into a chatting software changes everything. The words of a stranger compel her. Addicted and falling fast, their secret love changes her life. But will the idealistic teenager get her happily ever after? Kurzbeschreibung His eyes told her what his tongue could not.
