Von Matt Converse : Behind the Velvet Curtain (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Behind the Velvet Curtain (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Great and refreshing Von Anne B. Now that was a refreshing new kind of book. I loved the style of writing, it made reading it so easy and more flowing. The Story is awesome, sexy, funny and creepy. Holy hell, it left me shivering at some

points and keeping an eye on my closets too. Can't wait to read some more of this author.

KurzbeschreibungMatt Jaxx is a sexy stripper who develops a fast following, but one of them turns scary stalker. Along the way he way he meets Justin and it's lust at first sight, both doing things they'd only fantasized about. Right when he seems to have it all, his stalker reappears, revealing his twisted agenda. It's a fast, fun, sexy, scary tale.This story is so well written. The sex scenes are hot, with a little bit of something for several fetishes. The descriptive phrases used and the style of the story helped keep the tension and suspense building, as a good mystery should. --GGR- KurzbeschreibungMatt Jaxx is a sexy stripper who develops a fast following, but one of them turns scary stalker.
