Von Janet Miller : Beloved Enemy (Gaian Series Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Beloved Enemy (Gaian Series Book 2) (English Edition):

auf einem kleinen, unbewohnten Planeten ab. Um zu überleben, tun die beiden sich zusammen. Kavath kämpft gegen die Attraktion, die von Mea ausgeht, denn für seinen Stamm gibt es keinen zwanglosen Sex - für ihn ist es alles (=Heirat) oder nichts. Als die Rettung kommt, muss sich Mea entscheiden. Die Geschichte an sich hat man schon hundertmal gelesen. Aber die ungewohnte Umgebung macht die Geschichte interessant und sie ist sehr kurzweilig geschrieben. Mir hat sie gut gefallen. 0 von 0 Kunden fanden die folgende Rezension hilfreich. stranded in space Von Stephanie Krueger Spacepilot Megan An Flea has to land on an uninhabited planet after a lost battle in space. A Gaian pilot has to land as well because his ship was hit as well. First they fight each other than they learn to trust each other. The differences between their cultures lead to a few misunderstandings, but a happy ending is guaranteed. This is one of the nicer sci-fi chick lit. The "enemy" comes from a peaceful non-violent culture, which values all human life. This story twist gives the whole series an interesting flavour.

Kurzbeschreibung New cover, new price, same great story! In the far distant future, during a war that no one really wanted, two starfighter pilots become stranded on a deserted jungle planet. Both have skills the other needs for survival and they decide to work together rather than fight. But there is more than that between them. Earthforce's Lieutenant Meagan An Flea turns out to be Gaian Pilot Kavath Terrell's sexual match. Kavath attaches to Mea and she's attracted to him, but neither of them want to commit to a relationship. At least that's what they tell themselves! But as they work together for survival, both soon realize that what they have in common just might be more important than what keeps them apart. Praise for Beloved Enemy: 4.5 Stars TOP PICK! Romantic Times Magazine This book should not be missed. - Susan Mobley Five Stars Ecataromance! Janet Miller hooks the reader with the first few pages of the book and does not let go until the last. The relationship between Meagan and Kavath develops as they learn to work together to survive on the hostile planet while fighting the intense attraction they have for each other. Humor is generously heaped into a mix of action and hot sex. I enjoyed this book and hope Ms. Miller will write more stories about the interaction of Earth and Gaia in the future. - Candy 4.5 Unicorns Enchanted in Romance Introduced in the high enjoyable prequel Promises Keep, Ms. Miller's latest installment of the Gaian fight for independence is a refreshing read in the science fiction romance genre. . Overall, I greatly enjoyed this second novel in the Gaian world and hope to see another installment in the future. - Francesca 4 Cups Coffee Time Romance If you enjoyed Promises to Keep, Ms. Miller's first glimpse into the Gaian world, you will enjoy Beloved Enemy. The characters were both engaging, true in both words and deed, making them not only likable but believable as well. The style and tone of story held this reader's attention from the first page to the last, making for a highly entertaining read. One can only hope that Ms. Miller returns to the Gaian culture for yet another story. Kimber **Kurzbeschreibung** New cover, new price, same great story!
