**Von TL Alexander : Beneath Layers: Book Three Layers Series (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Beneath Layers: Book Three Layers Series (English Edition):

Great conclusion of this series, roller-coaster of emotionsVon readerThe book starts with Alexia recovering from the assault and Jaxson being in the same hospital but spending time with Mia and their newborn daughter. As Jaxson seems to care more for Mia and Katelyn Alexia kicks him out and carries on with her life. Finally there is a series which proves

that women are the stronger gender, Alexia is a very strong heroine, its a lot of fun to watch her actions. Jaxson seems to be a weaker type. The story keeps going with many surprises and both unexpected and foreseeable twists and turns. The banter and dialogues with family and friends are hilarious, Alexias twins are adorable, it is a pleasure to read this romance. There is a lot of suspense, grief, romance, love between all characters, and erotic scenes. These are no crude descriptions of the act itself but in the form of a witty dialogue, they stand out from the repetitive sex-scenes you can find galore in other novels. Naturally they get their HEA but then the book carries on with marital life, all the adjustments, and the solving of some loose ends including some surprises..I liked the prequels, but with this last book the trilogy has become one of my favorite series.
