winner in a long series of successes! Von Russell Weidel Once again, Gilbert Morris has done it! With a strong ability to weave in history with the story line, this novel moves you through an important time in the history of the United States. I enjoyed the way in which faith played an important part within the main characters lives. I found the story line very plausible, and was able to be transported back to feel as if I were there witnessing the happenings. Once again, the characters were developed very fully. As an avid reader of Morris' books, I found this one to be similar to his other successes, and as always look forward to his next one. 0 von 0 Kunden fanden die folgende Rezension hilfreich. EXCELLENT Von Ein Kunde One of the things that I love best about Gilbert Morris are his historical settings. I love American History and enjoy the fictional stories that revolve around fact. This book was not as satisfying as his other books in the series, but it was still very good and enjoyable. I'm looking forward to the next one.
