How do I start?Somehow to me this book seemed like a mix of the movies Blood Diamond, Mr. Mr. Smith and Bonnie Clyde. Of course it had its individual touch, but some scenes...

I could swear I've seen them in movies and therefore I suppose Stylo Fantome was inspired by at least one of them. This book is about 2 strangers (Lily Marc) who were hired by a man to do different jobs. Jobs that aren't legal and are definitely dangerous. Although they aren't working together, they've had a few chances to meet and see each other. Instant attraction led to them spending one passionate and hot night together. So who would have thought that they both would be in trouble the next day? Who would have thought that attraction would turn to hate and to both wanting to kill each other? And everything is based on a few rare diamonds, one misunderstanding, and one man who set them both up. Lily is a woman who spent the last 5 years planning her revenge. She's now a transporter and wants to get close to her No. 1 enemy with the help of the diamonds she was supposed to give him. Marc is a mercenary who is one of the best in the business and who is rough and ruthless. And he doesn't stop until he's gotten what he wanted and needed. When both find themselves in the situation of needing the diamonds to not getting killed, they both were forced to make a plan that would help both of them. But in a place like they are in, nothing is easy. Both are constantly in danger. Both have to fight. Both have to kill. But the most dangerous thing of all is of them both falling in love, right? Will they be able to fulfil their jobs? Will Lily get her revenge? Will they be free? And will they fall for each other or will they push each other away? Is it even possible to love someone when they're still doing those kinds of jobs? Will they live or die? My opinion: I already mentioned that many scenes reminded me of scenes I've seen in movies. That's not a bad thing though. I didn't like the writing style (sorry). It got better till the end when they were mainly just talking but the rest... I don't know. It was weird somehow? It was like someone was reading a story to someone out loud or like someone is talking to themselves or like someone on the outside is watching those characters and commenting on what they were doing, thinking, feeling, saying. I don't know how to describe it. It just wasn't to my liking :(It made it hard to connect to/with the characters. I'm kinda sad about it. But as I said- it got better till the end and I hope book 2 will continue that way. I liked Marc and Lily. The way they were talking and interacting with each other was great. I liked how feisty Lily is and that she's strong and stubborn and that she won't let anyone talk her down. Loved how she was fighting. Marc is a typical Alpha Male. Strong, sexy, rough, capable, dangerous and protective if he wants and needs to be. Kingsley was my favourite character, though. He was smart, funny, charming, sexy and dangerous. And he wasn't as cold as Marc. He was more real. I already read that there will be a book about him one day and I can't wait to read it. All the action scenes were good. There's nothing to complain about. They weren't too short and not too long. What annoyed me a bit was that they went to so many places. The book mentioned so many names of towns, cities, whatever. But... honestly... I was in school. I had geography and also had to work once on a presentation about the African Deserts. The problem is, I don't remember anything of it. I know almost nothing about Africa. I had no idea where everything is. It would have helped if the book had a map of their routes to look at in the front or back. I'll start reading book two after I finished writing this review and I'll see how everything is working out. As someone who loves pregnancies, I hope Lily is pregnant :P They didn't use protection so there's a chance ;) Also- I want a happy End. I want them to figure out their feelings. I just hope book two is better. I had such high expectations for this series but right now it's, unfortunately, just ok. As I said- I hope book two will be better. p.s. Don't let my review keep you from reading this book. Tastes are different

Ich liebe es wenn Protagonistinnen stark sind. Lily ist mehr als das. Man kann gar nicht zählen in wie viele Hintern sie in diesem Buch tritt. Die Story ist spannend und man kann das Buch nicht weglegen. Beim Cliffhanger war ich so sauer auf Marc, dass ich froh war, dass ich direkt den zweiten Teil lesen konnte. Mir hat sehr gefallen, dass sie sich nicht unterkriegen lässt egal was passiert. Das ganze Buch liest sich wie ein Actionfilm, aber das macht den ganzen Spaß aus. Tolles Buch, Leseempfehlung. Werde ich sicher noch Mal lesen.
