great book by Kayla Stonor in the Qui Treaty Collection series. Von DaCon Another great book by Kayla Stonor in the Qui Treaty Collection series. I recommend that you read the books prior to this one, so that you understand the relationship Jaden has with Sonil and everything he gave up in order to be Earth's tribute (even so according to the Qui he's not a very good one) as well as the dynamics between the other characters and the political climate not only on Earth but also in the Qui empire. I'm not into writing (or reading) reviews which basically tell you all the secrets of a book, so no spoilers here. I only like to tell you, that this one, well the whole series really, is sooo worth reading. Kayla Stonor's writing style will transport you into a world in which you love, laugh, suffer, cry and so much more right along with the guys she writes about. For me, this book is so far the best in the series, the story will captivate you and you are definitely in for a surprise, since the betrayal will not necessarily come from a person one would suspect. I received an ARC for an honest review.

**Kurzbeschreibung** They had a deal. She promised to protect him. Jaden forfeited rank and freedom to serve as tribute to the Qui Empress and save Earth, but there is no peace for a tribute who commands the heart of an Empress. Humanity has unwittingly become a gateway for an ancient enemy, with Earth at the center of a treacherous plot to strike at the Empress herself. Qui nobles demand Jaden be held to punishing account, an execution witnessed by all. She promised to protect Jaden, and now his life and Earth's fate rest on an impossible decision. The Empress must choose between love and duty. Both demand sacrifice. **Betrayal By Treaty** is a bold, fast-paced adventure of alien shapeshifter erotic romance with a strong alpha hero who will strike a deal with the devil to save the Empress he loves. The sequel to **Under By Treaty**, this sexy dark romance is also the seventh story in the Qui Treaty Collection inspired by **Under By Treaty**. Each alien shapeshifter romance is a standalone story set in the Qui galactic empire, with annihilation of mankind held at bay only through the Treaty consummated between the Qui Empress and the human consort abducted under its terms. Although **Betrayal By Treaty** is standalone, the story is set within this wider saga. It is recommended to read the Qui Treaty Collection in order: #1 **Under By Treaty** #2 **Release By Treaty** #3 **Restrain By Treaty** #4 **Hunted By Treaty** #5 **Submit By Treaty** #6 **Obsession By Treaty** #7 **Betrayal By Treaty** (sequel to **Under By Treaty**) #8 **Atone By Treaty**. **Release, Restrain, Hunted Submit By Treaty** are also available as **Alien Captive Box Set** (books 2-5). Reader please note: Kayla Stonor's romance can be dark and edgy, hot and wicked, punishing and uplifting. If you find certain themes uncomfortable reading, these stories may not be for you. **Betrayal By Treaty** contains extreme and mature themes including graphic language and violence. Readers are advised this novel contains scenes of a non-consensual nature and explicit sex. This full length novel includes bonus material: excerpts from other stories in the Qui Treaty Collection.
