WHERE IS THE SEQUEL???

Von CustomerThis book makes you ask one question: What is beyond the shadows?This may be the end of one trilogy but it has the feel about it of being the beginning of something new.Herein the characters we already know come closer to us and we gain a deeper understanding of them. That does not mean that all questions are answered, to the contrary. We feel with them, question their actions and wonder. When they suffer, you suffer.In one word, after reading the whole trilogy you are so deeply invested in the story between those pages that closing the last book borders on physical pain, which is about the highest praise for good storytelling I know to give.Now, where is that sequel???
