It is short, sweet and absolutely sexy and scorching, with a hint of drama. If those four hot bikers dont get you in the Christmas mood, nothing will.While the book focuses on Muff and his relationship with Janine, we are lucky enough to get to meet all the rest

of the gang too as they all celebrate Christmas together. Lets just say it is a very sexy Christmas. And fun too. Four hot bikers, the crazy women that love them, add some alcohol into it and you have the recipe for quite the party. The characters are as lovable as always and their interactions are funny, sweet and loving. They aren't just friends, but family. The way a family should be. Always there for each other, no matter what the odds. They prove that blood isn't always thicker than water. I am not kidding when I say that the way Bella Jewel paints this MC makes me want to be a part of it. They make me feel all fuzzy and warm. But what is important and makes it all believable and realistic is that the MC isn't just portrayed as a bunch of partying, drinking, hot dudes, but also as dangerous and if necessary violent men. They will stop at nothing in order to protect what is theirs. This is what makes their world so fascinating. Loving and doting boyfriends, husbands and fathers on one hand. On the other hand ruthless killers. And Muff, oh I loved him from the first time he appeared in the MC series. This novella solidified my love for him. He is sweet, adorable, sexy, hot as hell with the right amount of danger and attitude. Unlike the other guys, he does not hide behind any alpha or macho behaviour but can express his feelings and thoughts quite freely. This makes him even hotter. He tells things as he sees them and is determined not to let Janine get away. I swooned so much for him. Janine is the most quiet and settled one of the girls, which makes her perfect for Muff. She escaped a life of abuse, hate and fear and it is beautiful to see how she heals and thrives, not only under Muff's touch but through his love and adoration for her. The sex between them damn, I think I was about two seconds from spontaneous combustion. Not that I expected anything less from a Bella Jewel story. All in all, a perfect Christmas read. Not too sappy, but emotional enough to warm the heart. And sexy enough to set on fire. God, how I will miss those bikers. 5+ sitting in a freezer singing Christmas carols stars. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Not my cup of tea! Von Customer-DearPru Maybe I look for soft porn somewhere else and sinners should have been enlightening but honestly! Redeeming? Even killers have / need a clan, and a good one at that! I guess it was supposed to present life on the.....? One of these fast, mass productions or am I outdated? But then for the price, I can only blame myself.
