Billionaire's Fated MatesVon WOLI received a free copy of this story in exchange for an honest reviewFirst time I read both exelent written stories in stand alone stories. Now Canis give the gift of adding Omega Indoctrination and Omega Destined into the series of Billionaire's Fated Mates. Rereading both stories made the same fun as I had with the first reading of it as both stories are great written into the world of shifters and the gay world. As always they talk about the finding of your one and only match that makes you be in one piece together. Dive deep into it and enjoy the great world of Canis and his actors and the happiness when they found each other and can mate for life with the other half they seeked so long. It is a must have.
