Von Jamie Fessenden : Billy's Bones (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Billy's Bones (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Dark, gritty, intense and just... awww.....Von FelizThe small hints and clues strewn into the text that led closer and closer to the horrible solution like a nightmarish spiral made for a tale so absorbing, I found myself wanting to read just ONE more chapter, just ONE more scene until it was five in the morning and I'd devored the whole thing in one go.The mystery, and particularly its solution-- which was told in a flashback rather late in the book-- was actually deeply

disturbing; I said it already and I'll say it again, this is graphic violence and cruelty, and people with issues shouldn't read this! The relationship between Kevin and Tom was inextricably interwoven with the mystery. It moved slowly, and there was almost no sex, even though they spent the main portion of the book together naked and TALKED about sex a lot. But did I miss the sex? Not a bit. There was pain, and confusion, and longing, and there was love and heartbreak, forgiveness and healing. Hurt/ Comfort to the max. I loved the fact that love didn't simply conquer all here and the author stayed miles away from the "healing dick". Kevin couldn't even stand being touched, or kissed, in the beginning, and he wasn't magically healed and up to non-stop sheet gymnastics by the end either, but I could clearly see him and Tom working from what they had and slowly, steadily moving on. I think Kevin's characterization particularly well done, I could relate to every detail of his behavior, especially in sight of his history once the latter was fully revealed. Tom was a psychologist, but confronted with his boyfriend's hangups he wasn't any more competent than Joe Ordinary to handle them. He made mistakes, regretted them and made up for them. However, he seemed too out of his depths at times; some of the things he said or did seemed just so abysmally stupid. That might be only me, though. 'cause I liked Tom, I liked him a lot, despite his shortcomings--or perhaps just because of them. He was so human. This was competent, smoothly flowing, skilled writing that wrought words and sentences to maximum effect, a narrative voice that sucked me in right from the start and didn't let me go. Together with the engrossing plot, the fascinating characterizations and the haunting mystery, this was a book I won't forget anytime soon. 0 von 0 Kunden fanden die folgende Rezension hilfreich. A gripping story. Von LenaRibka It was my first book of Jamie Fessenden and for sure not the last one. The author has a very good and fluent writing style and the fact that it was not his typical book - that maintain at least the readers who have a profound knowledge of Jamie Fessenden's work - makes me even more curious. The plot was very interesting too, but not easy to deal with. It is not a kind of book that I pick up very often. Being an opponent of the death penalty, I can easily forget my position if it considers child abuse. The reason for ONLY 4 stars rating: I had my personal problems with the MCs. Jamie Fessenden invested a lot in the development of the relationship between them, I believe that he did also plenty of therapeutic research to create believable characters but I couldn't emotionally connect me with them: I couldn't buy the sudden attraction of Tom for Kevin at the beginning and I couldn't understand WHY they fell in love with each other along the story. It was strangely enough to see them as friends, but to accept them both as LOVERS was almost impossible for me. And it was not ONLY because of the total absence of sex between them. Besides, for someone who appeared to be a psychiatrist Tom behaved in some situation rather like a helpless teeny. And it was difficult to imagine that they both were in their late thirties. Tom and Kevin are likeable and nice characters, but they won't leave deep traces in my heart. All in all, aside of my personal issues, it was a solid interesting read and I look forward to reading more of this author. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Just a beautiful story. Fiction, and not to be criticised. I simply enjoyed it. Von gijimani I had a deep, warm feeling reading it. I have no negative criticisms (and I am an English teacher, who is highly critical). If anything, I recommend it for its warmth. Well done, Jamie. I look forward to reading more of your works.

Kurzbeschreibung Kevin Derocher was thirty-two when he walked into Tom's office, newly married, a baby on the way, and the collar of his red flannel shirt pulled up to hide the bruises around his throat from when he hanged himself in his garage. After his initial consult, therapist Tom Langois believes he'll never see Kevin again but Kevin turns up three years later to make repairs on Tom's new house. Kevin and Tom become fast friends, and Tom begins to suspect Kevin may be interested in more than friendship. However, Kevin remains haunted by something from his childhood something so terrible he blocked it from his mind. These suppressed memories make it impossible for Kevin to get close to anyone without panicking and lashing out, sometimes violently. But as his past begins to surface, it becomes apparent that Kevin may hold the key to a twenty-five-year-old mystery: what happened to Billy?
