Von Ross MacDonald : Black Money (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Money (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The finest series in American detective fiction.Von Gary F. PhelpsHammet, Chandler, McBain, Pronzini, Block and Parker are all masters of the American detective novel. The first two created the form, the last four continue to carry it out with both continued freshness and comfortable familiarity. The most perfect form, however, is the series of Lew

Archer stories and novels written by the late Ross MacDonald. Like Chandler an immigrant, he caught the smell and the feel of Southern California better than a native. He also crystallized the inner calmness and unwavering honor of the classic private eye, without awkwardness and sentiment. Perhaps the greatest tribute that could be given to MacDonald the writer is that he only wrote one story, but wrote it so well that each time was a new experience. This story is just that, a fresh look at the classic life and conflict in a Southern California that never existed but is real and beloved to everyone who admires and appreciates this very American form of literature. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Read it Von Ein Kunde An elegant masterpiece of crime fiction. Vivid and unsentimental, with crisp stylish prose, "Black Money" shows the power of Ross Macdonald work, and Black Lizard should keep 'em coming. By the end of the book, I was experiencing so many emotions I didn't know what to feel.. Highly recommended 1 von 1 Kunden fanden die folgende Rezension hilfreich. Yeee Haaa Von Ein Kunde This is a pretty good book. I had never heard of this dude but was referred to him by other Raymond Chandler fans. Pleasant surprise.

Kurzbeschreibung "The finest series of detective novels ever written by an American" WILLIAM GOLDMAN. 'I can't make your girl come back if she doesn't want to. I told you that on the phone...' When Lew Archer is hired to find out the truth about a suspiciously suave Frenchman who has run off with his client's girlfriend, it looks like a simple enough case. But things start to look very different when Archer connects the elusive foreigner with a seven-year-old suicide and a mountain of gambling debts. BLACK MONEY is Ross Macdonald at his very finest, revealing the skull beneath the sun-kissed skin of Southern California..de Next time someone who doesn't read mysteries asks where they should start, point them toward Ross Macdonald. Luckily, Vintage/Black Lizard is reprinting several of Macdonald's classic Lew Archer novels in handsome new quality paperback versions. If Black Money (or the other two books in the current series, The Drowning Pool and The Chill) don't have them panting for more, they're probably hopeless cases..com Next time someone who doesn't read mysteries asks where they should start, point them toward Ross Macdonald.
