Von Susan Johnson : Blaze before purchasing it in order to gage whether or not it would be worth my time, and all praised Blaze:

Susan Johnson would be one. Blaze was the first S Johnson novel I read, and without a doubt the best.

It took about a minute and half to realize there was something 'different' about her style of writing. She is definitely an author who breaks all of the standard 'formula' rules. I wouldn't recommend Ms Johnson's books if you are looking for the 'traditional' soft/romantic moonlight, poetry and candles - 'don't come near me with that big thing', done-to-death type of story. Personally, I expect, and like more for my money and reading pleasure. As they say; comedy is not pretty, and her books are not for the weak at heart. On the other hand, if you are looking for depth, historical relevance, with characters you can almost see and feel, S Johnson is the author for you. As any experienced reader will tell you, the difference between her books and the thousands of others is very simple. Ms Johnson's books, in a nutshell, just plain *kicks ass*..With of course, 'Blaze' kicking the biggest one of all.. :1 von 1 Kunden fanden die folgende Rezension hilfreich. Stick with itVon CustomerIf you can get through the first hundred pages of really bad writing, I think you'll enjoy this book.I agree with a previous reviewer that it takes quite a leap to believe a woman of 'good' breeding would behave as Blaze does, but if one chalks it up to the folly of the first 6 chapters, one can get over it. Eventually BLAZE settled down into a good read with a sensible plot, villainous villain, heroic hero and a really enjoyable romance. Ms. Johnson has the ability to write sizzling sex, but oddly the most passionate scenes in this book happened when the h h were angry with each other or when there was very little emotional commitment.If I was recommending this book to a friend I'd say skim the first 75 pages until Blaze agrees to negotiate with Hazard and then settle in for the read. It's worth it.1 von 1 Kunden fanden die folgende Rezension hilfreich. Sexy Native-American meets a blazen red head.Von Ein KundeA very excellent book. This book has it all. Romance, battles, historical facts, and a story line that sucks you in and you can't ever get your mind off the book. I have owned the book for several years and it is still my absolute favorite.
