**Von Marie Treanor : Blood Descent (Blood Hunters Book 3) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Blood Descent (Blood Hunters Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Great Book! Blood Hunters Book 3Von CustomerKonrad's life changed 16 years ago.As the last Ancient, Saloman has taken the vampires under his control. Those loyal have recognized discipline and government and are treating humans now

as more than just a food/blood source, puny and unimportant. The changing situation between hunters and humans is causing strife and unrest for some of the hunters and the way they have lived, until today. Whereas in the past one killed all vampires, regardless, now the need to kill was focused on those gone rogue. Many hunters are unhappy with the current situation, not able to lose their ingrained fear of the vampires. Konrad is such a hunter. His hatred doesn't allow him to see the good that could come of his human/hunter friend's new relationships with vampires. The terrifying events from his past won't allow him to move on and accept that some vampires just might be good. He is on the search for other like minded hunters. And then he meets Maggie. Great book ! In looking forward to Konrad's story I didn't anticipate what might happen with his character (though naturally hoping for him to have a HEA) so seeing his pain in being left alone made him more open to the reader. For a minute I wasn't sure. Now I can't wait for the next story.

Kurzbeschreibung A child is born...into the final showdown of Vampire and Hunter The face of a killer, the heart of a lost child Konrad once led the legendary first team of Hungarian vampire hunters. Now, refusing to ally with the undead, he goes his own way, slaughtering vampires across the length and breadth of Europe. The dying thoughts of one such vampire send Konrad to Britain in search of a dangerous instrument that might be just what he needs in his obsessive war with undead overlord Saloman a war hes determined to win at any cost. The only being who can lead him to the instrument and its current, evil possessor, is sexy, mysterious, young Glaswegian vampire Maggie, who holds herself aloof from her own kind. Maggie sees much more than Konrads anger and cruelty. She makes it her mission to reach beyond the horrors of his past and find the man he should have been. Difficult, when he threatens her heart as well as everything she believes in; and when her whole being clamors for his body and his blood. While journalists circle, about to break the news of vampire existence on mainstream television, Elizabeth Silk labors to give birth to Salomans daughter, and Maggie plays a dangerous game that risks everyone for her belief in one troubled man.
