Enjoyed this teaser Book 1 for the series Von Customer Maximilian the seductive but lethal bad boy vampire. 600 years old and feared by all, other vampires included. Mihaela the master vampire huntress whose lifelong quest is to destroy rogue evil creatures and to protect humankind. Her own family was killed by vampires. With the awakening of the last Ancient, Saloman, vampires were finally getting under control. Though he wanted power for his offspring his desire

was also for humans and vampires to coexist, eventually, in harmony. Mihaela and her team must learn to deal with a future change of attitude totally against all ideals vampire hunters have ingrained in themselves and learn to accept that (maybe) not all vampires are the enemy. But not all hunters want this coexistence. A sudden vacation in Scotland puts an entirely new aspect of her life's goal before her eyes. Is it possible the vampire who killed her family when she was small is here ?? Great story ! I enjoyed very much the teaser of an introduction into this series. Will she overcome her fear and give in to the seductive Maximilian ? What is the secret behind his disappearance the last centuries ? How is the young boy involved ? Why are there far more vampires in Scotland than should be ? And what is the story behind Saloman and Elizabeth ?

Kurzbeschreibung Natural enemies, deadly attraction... Mihaela, a fearless vampire hunter secretly haunted by loneliness and childhood tragedy, finds it difficult to adjust to the new world order where vampires are not always the bad guys. She's taking a much needed vacation in Scotland when she sees a little boy being chased through the streets of Edinburgh. Rescuing him brings bigger problems - two vampires from her past: Gavril, who killed her family; and the reclusive and troubled Maximilian, gifted Renaissance artist and one-time overlord of the most powerful undead community in the world. Maximilian once saved her life and now needs that favor returned. The earth moves for Mihaela in more ways than one. From Scotland to Budapest and Malta, she races against time to prevent a disastrous, vampire-induced earthquake and save an innocent yet powerful child all while fighting a dreadful attraction to Maximilian, her only ally, whom she can't afford to trust. For Maximilian, the hunter becomes a symbol of renewed existence, as he struggles to accept his past and rediscovers his appetite for blood and sex - and maybe even happiness. Blood Hunters is a sequel series to the Awakened by Blood trilogy, but can be read alone.
