Von Dawn Thompson : Blood Moon before purchasing it in order to gage whether or not it would be worth my time, and all praised Blood Moon:

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. riveting, chilling, lyricalVon J. MarshallThompson just continues to demonstrate what a talent she is. Having read her The Marsh Hawk and this book, Blood Moon, it's clear what a range she has to wield. This has strong echoes of the birth of the vampire mythos, drawn on the original perimeters set by Stoker. Only that is where she roots her story. From that point on Thompson pulls out all stops delivering a tale that is chilling, properly sinister and utterly riveting. She jumps

straight into the story, wastes no time delivering the first punches to give you a tale of two doomed lovers who race against time and search for salvation. Obviously, the first in a series, I am hungry for the next ones. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Nur schlecht Von M. Moser Ich habe leider bzw. zum Glck selten so ein schlechtes Buch gelesen. Dass ich es doch zu Ende gelesen habe, lag nur daran, dass ich immer noch gehofft habe, es wird irgendwann besser. Ich habe in letzter Zeit einige "Vampirromane" in englisch gelesen wie die Twilight-Serie, Sookie Stackhouse und andere. Dieses Buch hinkt sowohl vom Inhalt als auch von der Sprache her Meilen hinterher. Von dieser Autorin (ich habe auch noch ein anderes Buch von ihr gelesen, unter ihrem anderen Autorennamen - das genauso schlecht ist) werde ich mit Sicherheit nichts mehr lesen. 1 von 2 Kunden fanden die folgende Rezension hilfreich. Outstanding. Von Detra Fitch Vampire. Revenant. Nosferatu. Vampir. There are many words to describe the undead Sebastian. The deadly corpse had once been an Orthodox Auxiliary Bishop of Moldovia. The greatest prize for any necromancer, demon, or vampire is to corrupt one of the Lord's anointed. This is probably why Sebastian bit Jon Hyde-White. Sebastian's intent was to kill Jon because of his clerical calling. Jon is the third son of the Earl of Breckenridge and has just met the lady he wants to marry. Her name is Cassandra. She is a lady's companion. But, somehow, some way, Sebastian did not finish draining Jon. However, that did not mean Sebastian did not intend to finish the job of killing Jon. Being centuries old, Sebastian gets little entertainment from un-life these days. So Sebastian goes after Cass, intending to drain her dry and raise her as one of his many female companions. But, once again, Sebastian is interrupted before he can finish the job. This time, though, it is okay. Through his bite, Cass has been "infected", just as Jon is. Jon and Cass currently live in a half-state. They are still alive, but the infection will slowly transform them into undead beings. Jon's clerical calling gives him a bit more power over the infection than Cass. His infection is halted by his will, at least for a little longer. Cass has no such defense. Jon has already learned to change into a wolf form and back into his human form. He knows when the blood lust is coming upon him and can race out to feed on rodents and animals, instead of Cass or any other unsuspecting soul. And as our story opens, Cass has morphed into her animal form, involuntarily, for the first time ... as a black kitten, totally vulnerable to any and all predators. The blood lust is just beginning to happen within her and she has no control over it at all. In hope of a cure, Jon and Cass travel from London to Romania. Rumor has it that the holy men of a Moldovian priory, on the far west side of the Carpathian Mountains, may be able to save them from a future as vampires. Unfortunately, Sebastian follows them. Worse, not only did the rumor turn out to be false, but Sebastian is now on his own turf. Sebastian's ancestral home, Castle Valentin, sits high in the Romanian side of the Carpathians and is full of Sebastian's minions. Local villagers learn of Jon and Cass. They are rescued from death by Milosh, an enigmatic Gypsy who is also infected by Sebastian. For over three hundred years Milosh has resided in the half-state. Milosh begins to teach the new pair about their untapped powers and about the Blood Moon Rite they must perform to halt the infection. The rite will not cure them. They, just like Milosh, will always be vampire, but they would no longer age, need blood, or become undead. It is two weeks before the blood moon rises. During that time, Jon and Cass must learn to trust Milosh, learn how to use their new powers, and travel to the place in which they can perform the rite. But each time Cass changes into animal form, there is proof that the infection is spreading rapidly within her. The kitten is slowly maturing into a black panther. Time is of the essence, but now there is hope. Now they have a new calling. They will become vampire hunters. They will free the undead souls held captive by Sebastian and his ilk and give them back to God. ***** The story begins with Jon and Cass already infected and on the run from Sebastian. It grabbed my attention from the very first sentence. But for the first thirty or so pages, I was a bit confused as to just what was going on. My heart pounded at the drama unfolding and I wanted to know NOW! I am used to mysteries and thrillers beginning this way, but not vampire books, so it threw me for a few pages. However, I, as the reader, was not left hanging for long at all. Author Dawn Thompson let me follow Jon and Cass, learning everything as they did. The story has the flavor of Bram Stoker's horror "Dracula", meaning a vampire hunts a lady while her man tries desperately to save her, but also of a dark romance. Bedroom scenes are rare since the main couple has no idea what any child they conceive may inherit. Therefore, men will totally enjoy this book as much as women will. The story flows smoothly and is very well written. In fact, I have hopes that someday Hollywood will discover this gem and bring it to the big screen. Horror, love, drama, gore ... this book has it all. Outstanding! ***** Reviewed by Detra Fitch

Kurzbeschreibung Start of a stunning new series! THEIR DARK CURSE Jon Hyde-White was changed. Neither his horse nor his dog trusted him any longer, and with good cause; the transformation was almost complete. Soon he would cease to be an earl's second son and become a ravaging monster. Already lust grew, begging him to drink, to devour, to swallow in great gulps hot blood from every opalescent neck--and the blood of his fiance, Cassandra Thorpe, would be sweetest of all. Was that not why they were chosen? Was that not why the blasphemous creature Sebastian burst upon them from the London shadows? But Sebastian's evil task remained incomplete, and neither Jon nor Cassandra was beyond hope. Still she smelled of meadowsweet and lilies, and he still believed in Heaven. One chance remained--in faraway Moldovia, in a secret brotherhood, in an ancient ritual and the power of love and
