PageturnerVon actionangel6 Monate sind vergangen seit Vicki Nelsons gesamtes Weltbild umgeworfen wurde,6

Monate seit sie Henry, den Liebesroman schreibenden Vampir, kennen gelernt und mit ihm gegen einen Dämon gekämpft hat. Nun konfrontiert sie Henry mit einem neuen Fall. Dieser führt sie von den lebhaften Straßen Torontos in die indische Gegend Londons, Ontario. Hier macht ein Scharfschütze Jagd auf eine von Kanadas gefährdeten Spezies: den Werwolf. Zwei Mitglieder der Werwolf-Familie hat der unbekannte Schütze schon getötet und um weitere Verluste zu verhindern, hat die Familie ihre Fremdenfeindlichkeit überwunden und Vicki als Privatdetektivin beauftragt den Killer zu finden. Für Vicki ein neuer ungewöhnlicher Fall, für Henry eine Gelegenheit die Beziehung zu Vicki zu intensivieren. Wäre da nicht noch Mike Celluci. Dieser, von Eifersucht getrieben, beginnt Nachforschungen über Henry anzustellen. Dadurch bringt er nicht nur sich und Henry in Gefahr, sondern auch die Werwölfe. In *Blood Trail* (=Blutspur) greift T. Huff die von *Blood Price* (=Blutzoll) abgeschlossene Geschichte auf und führt sie logisch weiter. Henry und Vicki agieren wieder als Team, diesmal jedoch auf freiwilliger Basis und nicht aus Zweck wie in *Blood Trail*. Die Vorteile dieses seltsamen Gespanns haben sich schon in *Blood Price* ausgezeichnet. Vicki, die an fortschreitender Blindheit leidet, ist für den Tageseinsatz zuständig, während Henry aufgrund seiner Herkunft die Nachtschicht übernimmt. Die Persönlichkeit der Hauptcharaktere werden weiter ausgeführt, bruchstückhaft ihre Vergangenheit enthüllt. So bleibt noch genügend Stoff für die weiteren Bücher (*Blood Lines*, *Blood Pact*, *Blood Debt*). Sehr gut gelungen ist Tanya Huff auch die Darstellung der Sozialstruktur der Werwolf-Familie. Es ist sogar so verblüffend realistisch und plausibel erzählt, das man als Leser fast vergisst das es nur Fiktion ist. *Blood Trail* ist durch seinen scharfen Witz, der fesselnden Story und des exzellenten Schreibstils von Tanya Huff ein echter Pageturner. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Werewolves, Vampires and a Mysterious Sniper Von Monika Simon *Blood Trail* is the second volume of Tanya Huff's popular series about former Toronto homicide detective Vicki Nelson, her ex-colleague Michael Celluci and vampire Henry Fitzroy. While in the first book (which, by the by, one should read before starting the second) the menace was a demon conjuring student and subsequently the demon itself, this novel takes Vicki and Henry out to the countryside, where two members of a family of werewolves have been killed by an unknown sniper. Together Vicki and Henry set out to find who of the werewolves' neighbours could know their true nature and would have the skills to do the killing. Michael Celluci later also drops by to give some unsolicited but much needed help. Like the first book, *Blood Trail* is an entertaining and well written book. One aspect I particularly enjoyed is that the characters and their relationships with each other are more complex and differentiated than in many other vampire/werewolves/whatever novels in which teenage (or barely out of their teens) heroines abound who are inevitably finding their one true love etc. A thoroughly enjoyable book that I can definitely recommend. 1 von 1 Kunden fanden die folgende Rezension hilfreich. I loved this! Von Ein Kunde Tanya Huff is a wonderful author. I am so thankful I found this series! I have two more to go and I am already getting upset that it's close to the end of the series. I don't want to slow down. I have read one right after the other - never tiring of the characters - enjoying everything to the fullest! This book with the werewolves was very, very good. Tanya Huff did a wonderful job describing the werewolves' life and showing the families/packs' commitment to each other. It had you cheering, crying and laughing - especially at the antics of Shadow/Daniel. With not a lot of descriptive paragraphs, Tanya Huff brings everything happening between the pages so clearly into focus. You feel as if you are there. Even after the first book, I found myself caring very much for the three main characters. Glad that when I finished the first I had four books more to go. This is a wonderful series! Don't miss it, but make sure you read them in the order they were written.

**Kurzbeschreibung** For centuries, the werewolves of Toronto have managed to live in peace and tranquility, hidden quietly away on their London, Ontario farm. But now, someone has learned their secret and is systematically massacring this ancient race. The only one they can turn to is Henry Fitzroy, Toronto-based vampire and writer of bodice rippers. Forced to hide from the light of day, Henry can't hunt the killer alone, so he turns to Vicki Nelson for help. As they race against time to stop the murderer, they begin to fear that their combined talents may not be enough to prevent him from completing his deadly plan. **Pressestimmen** "Entertaining characters, wry humor, crazy plots, glimpses of horror, the occult, romance, and just a dollop of sex." VOYA "The novel [has] an unexpected serious theme that helps raise it above the crowd. It may be funny, often lighthearted and highly entertaining, but it's more than just another 'light' fantasy." Locus "A yummy concoction of equal parts fantasy and mystery, throwing in a splash of humor and a dash of romance to beguile the palate quite delightfully.... Ms. Huff manages to develop all her different plot threads to marvelous effect. How could anyone resist this vastly entertaining pastiche?" RT Books "A fine mix of the detective story with the supernatural, and easily Huff's best novel to date.... A rousing adventure tale with likable characters and an interesting setting." Science Fiction Chronicle "The author of the Blood novels has once again proven herself a master of urban fantasy." Library Journal "Huff tells a great story, but never takes herself or it too seriously. She consciously borrows elements from other books as well as movies, comics, and mythology and combines them with her own great imagination to make a thoroughly satisfying story."
