Von Vanessa Redmoon : Blood Vengeance: Blood Legacy, #2 (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Blood Vengeance: Blood Legacy, #2 (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Still a good sequel... Von Filerimos Blood Vengeance starts where Blood Legacy ends. Viktors and Ravens attraction to each other is still unbroken, but it seems that not only Raven has her secrets. Viktor seems to play a dangerous game too. -

The only question is: Will Raven survive this or is she already a living body? I would have loved to give this book all 5 stars, but the cliffhanger extenuated it. This book is in fact a bit longer than Blood Legacy but I have still the feeling, that it was far too short. Maybe it's the buildup of the story... - Anyway, I'm unsatisfied and hope that the next book will be better.

Kurzbeschreibung The next chapter in the BLOOD LEGACY saga Raven only wanted to spy on the powerful Bressov family of Vampyrs to aid the Resistance. But instead she caught the eye of Victor Bressov, newest Coven member, and a vicious, cruel lover capable of awakening just the kind of pain and pleasure she craves. Even as she reports on his dealings to the Resistance, she finds herself yearning to return to his bed. But her loyalty to the Resistance will be tested. If they're to overthrow the Vampyrs once and for all, she'll have to betray Victor Bressov and use him to set into motion a revolutionary chain of events. Yet Victor may be harboring secrets of his own . . . secrets that could make the difference between revolution and devastation of the Sanguine Empire.
