Von Thomas McKerley, Ingrid Schippers : Bloodlines - Touch not the Cat (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bloodlines - Touch not the Cat (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. An excellent read!Von Matthijs WinnubstThe authors of this book have convincingly managed to take you with them to different worlds: Scotland nowadays and a century ago, and New York/Boston a century ago. I couldn't stop reading, because I lived with the main characters for a while and just wanted to know what would happen next. The book gives a lively description of the feelings of the characters, and the surroundings where they are acting in. It has an exciting ending that makes you at the same time curious to the next book. I can recommend this book to anyone who is interested in Scotland, emigrating and living in the USA around 1900, and to anyone else who is up to being gripped

by an excellent story.0 von 0 Kunden fanden die folgende Rezension hilfreich. Surprising with a deep undercurrentVon jorine"Normally Im not one for different timeframes in fiction, but in Bloodlines - Touch Not the Cat, it provided more depth and suspense.To me the Bloodlines series are tales of courage, following up on chances paved by our ancestors through time, the quest to find what really matters.The Bloodline characters work around the inevitable obstacles life brings while thinking out of the boxThe pace of the book is one of a steady flow, like the river Spey, with surprising turns. Refreshing and enchanting!!

KurzbeschreibungWhen American homicide detective, Cathy Macpherson, reluctantly agrees to join her husband on a genealogy trip to Scotland, she does not expect to solve a mystery set in motion by her own ancestors. Switching back and forth between Victorian times and 2011, Bloodlines - Touch Not the Cat, reveals what forced Alexander Stewart to emigrate to America in 1895 and what moved laird Gordon Macpherson to protect his Highland values. Women's suffrage, racism and social division are at the heart of this gripping mystery. All bloodlines and events come together at a clan gathering in Scotland, where a family skeleton has a story to tell.KurzbeschreibungWhen American homicide detective, Cathy Macpherson, reluctantly agrees to join her husband on a genealogy trip to Scotland, she does not expect to solve a mystery set in motion by her own ancestors.
