KurzbeschreibungSex would be nice. But after giving birth, Sophie is a little self-conscious about her body, and her husband, Sawyer, hasnt even tried coming on to her. Whats a girl to do? Dont blab to your friends, thats what! Their reaction is a mix of shock and pity, but they unite under one common goal: to get her laid. In one week, shes going to show Sawyer just what hes been neglecting. At her reluctance, the girls all agree to break out their push-up bras for a night of showing off their assets in support of her mission.But Sophie wants it now. The talk with her friends sparks her to be the initiator, but when she tries turning on the charm, Sawyer still doesnt give up the goods. Now the only big O shes getting is offended.So she hatches a little plan of her own...Reader advisory: This book is part of a contemporary romance series that takes a fun look at life. You must be comfortable with the f-bomb and reading sex scenes because there is sex...eventually.
