Von Susan Krinard : Body and Soul before purchasing it in order to gage whether or not it would be worth my time, and all praised Body and Soul:

KundenrezensionenHilfreichste Kundenrezensionen11 von 11 Kunden fanden die folgende Rezension hilfreich. Fantastic!!!Von SueThis is the first Susan Krinard book I've read. As soon as I finished it, I came on line to order

every other book Ms. Krinard has written. *Body Soul* is that good. It's easily the best paranormal romance I've ever read and one of the best romances of any type. Jesse Copeland and David Ventris are two of the most complex, well-developed, truly heroic characters I've encountered in any fiction. Their lives, their very souls, are intertwined as both follow paths of hate, revenge, self-discovery, forgiveness, and love. I cared about them, and I wanted them to have their happiness even when it seemed impossible that they could do so. This book was not at all what I expected - it was much, much more. Romantic, haunting, and with a depth you won't believe. Buy it. Read it. You won't be sorry. 18 von 19 Kunden fanden die folgende Rezension hilfreich. The Perfect Romance Von Ein Kunde When Jesse Copeland was a child, her mother, a notorious drunk, allegedly drowned in what was regarded as an accident. Only Jesse thought her mother's lover, the highly regarded Gary Emerson, murdered the woman. For the next sixteen plus years, Jesse struggled to regain her equilibrium, but finally succeeded. Sixteen months ago, Jesse returned to her hometown to join a mountain rescue team. Everything is working out fine for Jesse until Gary returns to the town, running for state assemblyman. Seeing Gary sparks negative feelings inside of Jesse, who decides it is time to investigate whether he murdered her mother or not. Gary has an agenda also. He knows the only flaw in his run for public office is Jesse and what she truly knows about the death of her mother. Meanwhile, David Ventris, a deadman residing in purgatory has been given a chance to cleanse his soul by righting a wrong he committed to Jesse when she was an early nineteenth century English lady in a previous life. *BODY AND SOUL* is an astounding otherworldly romance that should garner awards for the stupendous Sue Krinard, the leading light of the sub-genre. The story line is a crisp combination of elements from the intrigue, paranormal, and historical that under the incredible talent of Ms. Krinard turns into a masterpiece that will be loved by fans of all three sub-genres. PHarriet Klausner 1 von 1 Kunden fanden die folgende Rezension hilfreich. A good read Von Ein Kunde This was my second Susan Krinard book that I have read. It in no way measured up to *Prince of Shadows*, but it kept you going if just to find out how they resolved the problem of David being a ghost. There were a few discrepancies in regard to Al, one comment being his "pinned up sleeve" which led you to believe he had lost his arm, but then in another part of the book it mentioned him putting his "hands" around his glass. He supposedly had to walk with a cane, but managed to speed off through the woods... but that is just minor flaws. The book was good, but if you had a decision to make between reading *Body and Soul* first or *Prince of Shadows* - please pick *Prince of Shadows*.

Kurzbeschreibung The bestselling author of *Prince of Shadows* and *Twice a Hero* again displays her incredible talent and imagination in an enchanting new romance about a love so deep it will bring a man and a woman together...in another century, another life. Jesse Copeland, an expert in mountain rescues, has returned to Manzanita after years in the Peace Corps. Despite an indomitable courage that sent her rappelling down cliffs, she is haunted by the nightmares and shadowy half-memories surrounding her mother's mysterious death. Now she is determined to find out if her mother's "accident" was murder. What she finds instead is a man as transparent as air--sensual, muscular, his blue eyes burning into hers as she cries out one word from a place deep within her: David. David Ventris, Lord Ashthorpe, late of His Majesty's Light Dragoons, is, simply put, a ghost. He's waited two centuries to be called back to earth by the woman he wronged. He knew her as "Sophie," a wondrous lady who sparked a passion so blazing that time could not dim the flames. Now he is being given the chance to guard her from danger and get back his soul--if only she will believe him real and not madness. If only she will love him enough to create a miracle...and give him life again. From the Paperback edition. deKnown for her supernatural romances, Susan Krinard combines an intriguing ghost as hero with two sets of characters, one the reincarnation of the other, to create a refreshing story of redemption through love in *Body Soul*. Jesse Copeland, struggling to understand a childhood trauma that left her an orphan, and threatened by the return of a man she reviles, unconsciously summons up David Ventris, who died 200 years ago in the Battle of Waterloo. David, who can take full physical form, betrayed Jesse in an earlier life and seeks her forgiveness. Krinard deftly shows these characters becoming more fully realized people as they deal with heavy emotional baggage (some of it a couple centuries old!) while also confronting a very real villain and discovering a love that's powerful enough to forgive any transgression. An original, well-written love story with many satisfying surprises. --Ellen Edwards.com Known for her supernatural romances, Susan Krinard combines an intriguing ghost as hero with two sets of characters, one the reincarnation of the other, to create a refreshing story of redemption through love in *Body Soul*.
