MUST READ-FANTASTIC STEAMY ROMANCEVon midniteinkMACE-NOVEMBER-A CAPTIVATING ROMANTIC STORY.The story features: EROS: God of Love and desire, matchmaker; CHLOE (Chlotho) the Fate of birth-matchmaker; Piper, a hazel-eyed beauty and astronomer; Mace, a heart-stirring gorgeous mystic and Park

Ranger. What you'll find in this story; a cast of characters that are impressive and engaging, fabulous story-line, vivid scene descriptions, heart-rending flashbacks, steamy romance, and a heart-melting conclusion that leaves you wanting more. Eros gives Chloe the challenging job of getting Piper and Mace back together after being broken up for almost a year. The hardest job is to get them together in the same place. Chloe secretly asks for assistance to bring them together to work. Mace has a plan that he hopes will bring the love of his life back into his arms as she never did leave his heart. FANTASTIC well written ready by a truly gifted author. I loved this story, a most delightful read. A story about letting go of your pride and admitting your mistakes. Second chance romances are wondrous when the chemistry is just perfectly filled with devotion, communication, and the simple things that make you smile. The characters in this story are more than convincing and spring to life with the fabulous story-line and scene descriptions. If you treasure fantasy romance this is a terrific book for your library. {I received a copy of this book for a completely honest review}. The possibilities in fantasy romance are endless and always fascinating. Without reservations I recommend this book.

Kurzbeschreibung One simple request Park Ranger Mace Seneca and Astronomer Piper Whitney have a past. One that bears repeating, if the Gods have their way but, with a few slight changes. They broke up almost a year ago over something utterly ridiculous. She wanted him to come to Thanksgiving dinner at her parents house. He didn't. Instead of explaining that the thought of going freaked Mace out, as he was worried about expectations, he left Piper standing on the sidewalk. Cold. At night. In the middle of November. And on her own. It should have been the end. But, when the Gods dip their hands into the lives of humans and Mystics, things tend not to stay over. With a little astronomical fiddling, Mace and Piper are thrust back into each other's lives. They're forced to work together in order to recover a meteorite that just happened to land in the State Park where Mace worked. Each of them dread and anticipate the encounter. What would it be like to see the person you still had feelings for? How would you cope with not being an us? Leads to a second chance Working separately during the day and then spending their nights in close quarters, each of them wonder if they could be a couple again. Before that can happen, however, they need to examine how they fell apart so easily, and if they can truly have a second chance at love.
