empfehlenswertVon Nadine MatiaschekDas passiert mir auf gar keinen Fall. Ja, ja das haben wir alle schon mal gehrt.
Und dann passiert es doch. Ob es einem gefllt oder nicht. Aber irgendwie gefllt es einem ja doch. Typische Story aus
dem Genre, aber dennoch sehr kurzweilig. Das zgern des Hauptprotagonisten ist allen verstndlich und trotzdem fiebert
man auf das Unabwendbare hin. Und man wird nicht enttuscht. Der Ort und die Story machen diese Buchreihe zu

einer interessanten Geschichte. Gefllt mir sehr gut. Und endlich mal eine Story, die bereits abgeschlossen ist.

KurzbeschreibungThe horrors of planet Secren reveal themselves to Demetri one by one, making him even more desperate. His parasitic computer guide, Brainbox, continues to tell Demetri his only chance for survival is to become the beta (lover in the submissive role) to the charming mine overlord Malstrum. Someone is after Demetris claims, and the precious beads his group must mine in order to have food for survival. Their new enemy is named Flurry. They learn hes not only a psychopathbut a cannibal. Things are even worse than the gloom and doom warnings Demetri got from Malstrum. He needs helpno matter what the personal price.
