**Von Donna Fletcher : Magical Moments (Wyrrd Witches Book 2) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Magical Moments (Wyrrd Witches Book 2) (English Edition):

WongThe premise was interesting: a secret society of immortal witches that takes care of its own. Our hero, Dagon, is a powerful witch who plans on marrying another witch of equal or greater power. Unfortunately, he finds himself attracted to Sarina, a witch who mysteriously lacks power and is quite clumsy. Sarina

has her own secrets and doesn't quite trust the arrogant witch, but she, too, finds herself falling in love with him. Okay, read this, thought it was all right minus the odd dialogue and the sermons on love (I know, it's a romance, it's supposed to talk about love, but this was a little over the top--very sappy and wishy-washy). The dialogue was too archaic. Although the witches are immortal, you would think their language would change with the times. Instead, they seem to be trapped in the medieval ages, despite the fact that it's the 1990s. There were a few too many sermons on the magical and omnipotent aspects of love. After the first two, I thought "Enough already...get on with the story!" Regardless, I liked the book. Enough to look for its prequel, WEDDING SPELL. If you like paranormal romances, you'll probably enjoy this one. Donna Fletcher has created an interesting fantasy world I wouldn't mind visiting again. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Samantha eat your heart out... Von Ein Kunde An strangely incompetent witch meets a very powerful witch and magic happens... along with crashing items and falling heroines. This is funny and teaches what love is really about... and not just romantic love. Caution: If you are Wiccan you may have a bit of a problem with the way that one of the characters implies that the Wiccan religion is sort of child's play. As a Wych I follow my soul's direction on an ancient path and although I am not Wiccan I know many who are and most are more serious about their faith than many I know of other faiths. All that aside; taken with a \*cow lick\* of salt this story is well written and fun and I look forward to the next one... which hopefully there will be at least about Tempest. 0 von 0 Kunden fanden die folgende Rezension hilfreich. WOW! Bewitching Magical Moments Von Laleh Faraji I did something that I had never done before. I finished reading this fascinating book and went back to the beginning to start reading it again. I was absolutely enchanted the first time I read it. Ms. Fletcher gave me many many magical moments. I could not put it down. While I was desperately wanted to know the conclusion, I did not want the story to end. I was dazzled and spellbound. Ms Fletcher, I am also dying to know a little about you. No information appears at the back of any of your books. Will you indulge your admirers. Thank you Ms. Fletcher.
