It was a dream she shared with her dying mother. Now Ari is ready to face her domineering father for a chance to go. Unbeknownst to her, her

father has arranged for a special mercenary to guide and protect her. Rafe Antonio is a wonderful hero. He is tall, strong, honorable, protective, handsome, intelligent...have I forgotten anything? He sounds almost too perfect to like and yet he is very likeable, compassionate, and lonely. Arianna, on the other hand, has little self-confidence. She is introverted and delicate, but also creative, joyful and loving. It takes Rafe's strength and confidence to help Ari find herself. She also has help from Inca, (a great character from previous McKenna stories) who is an extremely powerful woman. Rafe finds in Ari, someone who feels the same wonder and joy he does about the rainforest. There is great emotion between these two, NOT just lust. Another terrific story by Lindsay McKenna! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Power and beauty Von Ein Kunde I loved this book. It's unlike anything else I have read, and that's a definite plus. Its power and beauty make it a must buy. The hero and heroine, Rafe and Ari, are full-blown characters with depth and feeling. The storyline is exciting and makes you wish you were there! I can't wait until the secondary character, Inca, shows up in her own book, due out in August. I hope everyone gives *Man of Passion* a read...you will be so glad you did. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Wonderful Work Again. Von Pamela L. Nutter The story centering around Rafe and Ari in his jungle was excellent. I was grateful to see the maturing of Ari in a smooth story line. Many of the stories we read today just jump right into the characters as full-blown individuals. We don't know who they really are. In this story, the characters fully developed within the storyline. It was a no-stop reading marathon for me. I enjoyed it to its fullest.

Kurzbeschreibung Brazilian mercenary Rafe Antonio never thought he could be bought off. But that's exactly what happened when he consented to his superior's command: Play protector to an American socialite in exchange for aid money for his foundation. He'd walked away from privilege, so he knew all about rich women. And he wanted no part of them. But Arianna Worthington was as delicate, vulnerable and gentle as the rare jungle orchids she planned to draw to fulfill her mother's dying wish. And Rafe would have to reexamine his assumptions and prejudices if he ever hoped to be the new chapter in her life. For my readers, this is the beginning of a new 3-book trilogy, *Morgan's Mercenaries: Maverick Hearts*. These books are about men who broke the mold, who listened to their own inner, driving needs fueled by dreams and desires that could no longer shackle them to their present life. *Man of Passion* is my 50th book! I can't imagine writing so many books. But that was 20 years ago and time has flown by. I hope my readers continue to be entertained by what moves me and makes me want to eagerly sit down at the computer to create another novel :-). So, July is a month to celebrate! Rafe Antonio is a man of passion; for what he believes in. Born in a very rich family with a noble past, he kicks aside the traces of what is expected of him by his father and family. Instead, what moves his heart is the plight of the South American Indians in the jungle in his country of Brazil. He is a bulwark, a knight from another age, who understands too clearly that his presence among the Indians as a 'backwoodsman' (a forest ranger) means their life or death...and possibly, his own death someday because miners, loggers and drug lords want his larger-than-life presence out of it so they can plunder, steal and kill the Indians to get what they want: greed and money. Arianna Worthington, blond-haired, a northeasterner from a very powerful and rich family from Washington, D.C., is driven by another passion: To fulfill her mother's dying wish to find, draw and publish a book of orchids from it. Unsure of herself, yet driven by her dream to fulfill her mother's last wish, Arianna goes to Brazil against her father's wishes. If not for Morgan Trayhern, who runs *Perseus*, a top secret military and mercenary company, Arianna would be left to the mercy of wild and untamed it. Luckily, Rafe Antonio agrees to be her guide, though in reality, is her body guard....even if she doesn't know it. Two people, both with passion, with dreams, collide in the heat and humidity, the raw, unbridled beauty and danger of it. Rafe is determined not to lose his heart to this blond-haired waif who lives by her emotions and her bright, scintillating dreams. Arianna, on the other hand, came to it to live a dream. Little does she realize that her dream of a knight in tarnished armor, will not only capture her heart, but her imagination and passion for living as well. The dark clouds of Rafe's enemies close in around them. Will he be able to protect Arianna as he promised her father and Morgan Trayhern? From himself? From violent drug smugglers? From a dark, mysterious, dangerous and beguiling land that captures them both within her lush, fragrant bosom of magical possibility? I hope you enjoy this book as much as I did writing it. Book 2, *A Man Alone*, comes out in November, 2000. Book 3, *Man on a Mission*, February, 2001. Happy reading! Lindsay McKenna
