interesting and captivatingVon Hoener, BirgitThe first in a trilogy, the book tells the story of Manannan McLir, or at least a short period of his life, where he meets Renny, an abused youngster, who he saves and teaches his medical knowledge, before he has to flee again from his enemies.The book may not be as fast paced as others, and sort of

meanders quietly through the story (although near-rapes, raids and battles are happening), but it does hold the reader captive and eager to continue the story. Deep characters, a well-researched history, a good quiet narration style - I really liked this book and will definitely be reading the other two in this trilogy. The ebook could do with another editing though, as there were a couple of spelling and grammar errors, or double or missing words.

Kurzbeschreibung Fantasy winner UK Authors Opening Pages Competition 2008 Highly atmospheric, and we were caught up all the way through. The concrete details are beautifully inserted in the story, vivid and convincing. My enchantments are only the magic of the earth itself and the things that grow. I heal not harm. I repeat " you have no need to fear me. You won't turn me into a frog, will you? I had never believed that particular story anyway. I prefer you the way you are, he replied with a smile. Manannan McLir escapes his enemies and finds sanctuary, for a little while, on the Isle of Man. Both feared and urgently needed, he uses his skills and the strange knowledge from the East to cure wounds and sickness. Among his patients is Renny, a young Celtic girl who falls in love with him and is witness to a terrifying experience one night. As he tells her later, My visions are the only true magic I possess, and this knowledge must be kept a deadly secret, otherwise my life, and perhaps yours, is in peril. These visions predict the future, for other forces are stirring in this Year 800. A Viking chieftain has sent his son to look for land that he can conquer and settle. This young man, Edan, hears about the Magician, as Manannan is called, and alerts his people. When the Vikings invade, bringing with them Manannans bitterest enemy, a great battle takes place and Manannan must escape from the island. But he is surrounded and only cunning, not magic, can help him now. "Very compelling and dynamic write. The descriptions of the kind stranger are wonderful. This period piece is done well." UK Authors Reader Five This Author certainly has a gift for story telling.
