have" for all Mass Effect-Disciples
Von Michael To all passionate fans of the captivating Mass Effect-trilogy this book gives an insight to the enthralling events preceding part 1. Drew Karpyschin's fascinating pc-game-universe put me under its spell from the very beginning and IMHO surpasses even the starwars-saga! Since it is a very complex universe with a perplexing variety of alien-species, I'm not sure if "Revelation" can be fully understood by someone not familiar with especially the first part of the game-trilogy. But a captive fan like me will certainly enjoy the story behind Captain Anderson and his Turian adversary Saren Arterius and will soon find it as absorbing as the game itself.

Von Gimp Ich habe alle relevanten Bcher fr die 3 Mass Effect Teile gelesen. Keine groe Literatur erwartet, aber ich fand sie alle handwerklich solide geschrieben und als Fan interessant und unterhaltsam!
Did read all books for the 3 Mass Effect games. Didn't expect big literature, but I found all of them being well written and being a fan interesting and entertaining!

Von DrCarsonBeckett... das beste von allen. Die Story war sehr gut. Spannend bis zum Schluss. Erzahlt auch einiges wichtiges fr den Hintergrund einiger Ereignisse und Charaktere. Fr jeden Mass Effect Fan empfehlenswert. Im englischen jedoch um Welten besser als im deutschen.

Kurzbeschreibung Every advanced society in the galaxy relies on the technology of the Protheans, an ancient species that vanished fifty thousand years ago. After discovering a cache of Prothean technology on Mars in 2148, humanity is spreading to the stars; the newest interstellar species, struggling to carve out its place in the greater galactic community. On the edge of colonized space, ship commander and Alliance war hero David Anderson investigates the remains of a top secret military research station; smoking ruins littered with bodies and unanswered questions. Who attacked this post and for what purpose? And where is Kahlee Sanders, the young scientist who mysteriously vanished from the basehours before her colleagues were slaughtered? Sanders is now the prime suspect, but finding her creates more problems for Anderson than it solves. Partnered with a rogue alien agent he cant trust and pursued by an assassin he cant escape, Anderson battles impossible odds on uncharted worlds to uncover a sinister conspiracy . . . one he wont live to tell about. Or so the enemy thinks.
BONUS: This edition includes an excerpt from Drew Karpyschin's Mass Effect: Ascension.
