stand (something she has never done) with the 'Magic Man' and despite precautions she ends up expecting. Suddenly, she regrets they did not bother to observed preliminaries - like exchanging names and telephone numbers. Even though she is facing being life as new doctor, she quickly adapts and enjoys her role as new mother. 6 months after the baby is born she moves back to the small down in Maine, still expecting to never see the baby's father since she believed he was passing through. Instead, as she quickly discovers since he is her first patient, that he has always lived in the town. Since the 34 year old father of her child is standing there with his 19 year bimbo cheerleader girlfriend, she panics and says she is married. Worse, she discovers he is the landlord of her new residence! The lie grows and grows until she finds herself buying clothes and creating magazine subscripits in the 'husbands' name, trying to convince Jack that she is married. It is often a little stretched, and you really wonder if someone would go to these extremes, but Fox's writing makes the whole thing enjoyable!

Kurzbeschreibung Not Looking For Mr. Right? Dr. Delaney Poole thinks Harp Cove, Maine, will be the perfect place to settle down and raise her infant daughter -- though she can't say why. Something wonderful happened in this charming, two-spotlight coastal town on a previous summer night, when a sexy stranger stole his way briefly into her heart and then moved on. But now single-mom Delaney has to invent a husband in order to deflect small town gossip -- buying masculine clothing that no one will ever wear, framing pictures she's cut from magazine. Her foolproof plan has one small glitch, however: her one-time mystery man is Delaney's new landlord! Jack Shepard never dreamed he'd see Delaney again -- and he doesn't believe for one minute her cockamamie story about a husband! While he's exploring the leaks in Delaney's bathroom -- and in her alleged "marriage" -- he's trying desperately to get her to admit that they share something special. But when the truth does come out, can Jack and Delaney deal with the passionate consequence? From Publishers Weekly One seemingly innocent lie swiftly snowballs to preposterous proportions in this farcical contemporary romance. Harp Cove, Maine, is "The Way Life Should Be" quaint, friendly and filled with good-humored gossips. While visiting the picturesque little town, Dr. Delaney Poole has a one-night stand with renowned ladies' man Jack Shepard and is stunned to learn soon after that she is pregnant. A year later, Delaney returns to Harp Cove with her infant daughter to assume the position of town doctor, only to find that Jack is her landlord. For some unknown reason, Delaney had intended to pass herself off as a divorcee, but when she sees Jack and the sultry teenybopper he's with, she invents a husband who lives in another region. To convince Jack that she does have a husband named Jim or is it Joe? Delaney has to slice a couple of months off of Emily's age, redo her tax form and stuff her closet with men's clothes. Delaney is a terrible liar, however, and Jack sees through her charade. The only thing that perplexes him, and the reader, is why Delaney feels the need to lie in the first place. Fox (Compulsion), a veteran author of historical romances, has made the mistake of letting silly shenanigans and screwball behavior overshadow the romance here, and this debut contemporary is unlikely to earn her a broader readership.
