Von Ann Mauren : Mayne Attraction: In The Spotlight (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mayne Attraction: In The Spotlight (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Really enjoyable - until the endVon Helen HancoxFree Kindle eBooks can be a bit of a gamble. I tend to download them and not look at them for a while, by which point I've forgotten what the book was supposed to be about (and it's not obvious from the information on the iPad). So when I started reading Mayne Attraction: In the Spotlight I wasn't sure

even what genre it is. I still don't know - maybe Young Adult? Our heroine was certainly young, probably only 19-20 by the end of the story. Romance? Maybe - but the book didn't reach an obvious romantic conclusion. Thriller? Well, not really, but there was surveillance and some mysterious elements. In short, I don't really know who this book is aimed for - but I liked it. I liked it very much initially. It was hard to work out what was going on, our heroine Ellie seemed rather odd. She's young (about 15 as the book starts, I think) and clearly has some psychological issues which I think the author dealt with really well. Ellie doesn't speak much, has few if any friends, stays in her room all the time - and yet you live this life with her and accept that. Then Ellie realises that she is under surveillance. Initially I assumed she was making this up - she's clearly an imaginative girl - but no, she really is, and as she starts to identify the team of watchers she also begins to come out of her shell, making friends and doing different things. At the centre of the book is a sort-of love triangle, although it is very slowly developed. Although I really enjoyed reading the story I felt that the characters of everyone other than Ellie were rather hard to grasp and I was particularly unsure of the two main male characters. I was also not convinced as to why Ellie was considered so irresistible by everyone - she describes herself extremely self-deprecatingly and we don't really get a full view of her from an outsider's point of view. Ellie is coming of age and beginning to make her own way in the world and become more independent. The story ends with her making a very independent step but unfortunately the end came in the wrong place for me - as it wasn't the end and almost nothing was wrapped up. There are further books to come (apparently narrated by different characters so we see events that Ellie has described from different viewpoints) but I find myself once again annoyed that a story hasn't actually finished properly itself. I did really enjoy the writing style and the unusualness of the heroine and if I'd stopped reading 90% of the way through (assuming all was tied up properly at the end) I'd have given this book five stars. As it is, though, the ending soured it all a bit for me. It's a good book to read, though, and quite different from other books I've read recently.

Kurzbeschreibung After a foiled abduction attempt, Ellery Mayne realizes that an entire security detail has been shadowing her every move, protecting her from danger she didn't know she was in. Working to uncover the secrets behind her elusive watchers, she carefully conducts her own surveillance, testing the limits of professionals who think she is clueless about them. Though they are hard to spot, their loyalty and care for her is not. When she finds a way to declare her feelings for one of her guards, he is blindsided with joy but fearful that his team will lose its lucrative security contract because of his relationship with the mark they've all come to love. As secrets to the identity and intentions of the team's mysterious employer begin to unravel, Ellery's deeply buried affections resurface and battle with the love and loyalty she feels for her security team and her new love. Searching for answers and conscious that her choices will impact loved ones and guardian angels alike, Ellery finds that her life is *In The Spotlight* and she is the *Mayne Attraction*.
