sixth book (seventh story) of Lora Leigh's Breed Series. I have discovered Lora Leigh as a writer who creates love stories with strong explicit erotic scenes with the minimum of story to keep the tale alive. For this Series, however she has changed 3 times the editor, this is quiet important because in the previous five books the sexual scenes are dominant in comparison to the story itself. Here, with Berkley Sensation, the story gets much more important, but the sex scenes remain hot. Also, on the cover, it is presented to be the first book of the series, but it's not. Breed chronology from L. Leigh's website: 1. Tempting the Beast 2. The Man Within 3. Elizabeth's Wolf 4. Kiss of Heat 5. Soul Deep 6. The Breed Next Door (in Hot Spell anthology) 7. Megan's Mark 8. Harmony's Way 9. Tanner's Scheme 10. Wolfe's Hope (in Primal heat anthology) 11. Jacob's Faith 12. Aiden's Charity 13. In a Wolf's Embrace (in Beyond the Dark anthology) 14. Dawn's Awakening 15. A Jaguar's Kiss (in Shifter anthology) 16. Mercury's War 17. Christmas Heat (The Magical Christmas Cat anthology) 18. Coyotes Mate 19. Bengals Heart 20. Lions Heat

Storyline: Scientists have created years ago humans with DNA mixed to that of wild animals, such as lions, tigers, wolves, coyotes etc... the result being the so called Breeds, humans with sharpened instincts, wilder then normal humans, having a great sense of loyalty or as little sense of loyalty as humans. These scientists now hunt them. Megan Fields is a deputy in a small town in New Mexico, working most of the time in the desert. The reason for this is that she is an Empath and she can not handle a surcharge of emotions. On one of her missions, she finds 2 killed breeds. Suddenly she is being attacked and is trapped in a cave. Braden Arness, a lion breed, saves her. They will both find out that they are mates, needing each other in a mating frenzy. To protect her he will need to teach her to control her empathy and to lean to follow his lead. Both characters are fun, lively, very independent and well described. It is not the typical romantic story, both figures are tough warriors, their lives being full of threats. So if you like hard, fast and erotic, you will like this book. Enjoy the read.

Da hrte man mehr draus machen mssen Von Ein Kunde Megan Fields ist Deputy in einem kleinen Nest in New Mexiko, wo sie sich in der Wste versteckt, weil sie Empathin ist und leider nie gelernt hat sich gegen die Emotionen von anderen zu schtzen. Whrend ihrer Streife findet sie zwei emordete Breeds, und wird von deren Mrdern ins Visier genommen um in letzter Minute von Braden Arness gerettet zu werden. Es stellt sich heraus, da die Breeds da waren, um sich mit ihr zu treffen und Megan das eigentliche Ziel ist. Der Einzige, der sie beschtzen kann ist Braden, und dann stellt sich auch noch heraus, da sie sein Mate ist, eine hormonelle Bindung gegen die kein Kraut gewachsen ist. Ich habe dieses Buch gekauft, weil mir 'The Breed Next Door' in dem Buch 'Hot Spell' am besten gefallen hat und auch aus der Feline-Breeds-Reihe ist. Nachdem ich dann also eigentlich keine Probleme htte haben drfen zu verstehen worum es geht - genetisch vernderte Soldaten, in diesem Fall Lwen DNA, die in Laboren gefangen gehalten und gefoltet wurden, dann vom Militr befreit wurden, und jetzt um ihr berleben und einen Platz in der Gesellschaft kmpfen. Leider habe ich dann ber die Hlfte des Buchs kaum verstanden was vor sich geht, weil es ein einziges hin und her ist, mit angefangenen Handlungsstrngen, die nicht mal alle zu ende gebracht werden, manchmal einfach wieder aufgegriffen werden, um sie dann wieder in der Luft hngen zu lassen... Schade, die Idee und die Story htten viel mehr hergegeben

Langweilig Von Lisa Obwohl ich sehr gerne und sehr viele Bcher der Kategorie Paranormal Romance lese, kann ich mit diesem Buch einfach nichts anfangen. Ich hab zwei Mal versucht, es zu lesen, bin aber ber die ersten paar Kapitel nicht hinausgekommen. Die Charaktere sind meiner Meinung nach eindimensional und ich hab es einfach nicht geschafft, sie sympathisch zu finden. Die Geschichte ist nicht sonderlich spannend, obwohl die Idee eigentlich gut ist und man wohl auch mehr daraus htte machen knnen. Vielleicht lese ich dieses Buch doch nochmal, die Story klingt ja an sich ganz gut und htte durchaus Potential, aber ich fand die ersten paar Kapitel des Buches einfach langweilig. Ich rate vom Kauf dieses Buches ab. Fans von dieser Kategorie (Paranormal Romance) kann ich stattdessen Nalini Singhs groartige Bcher empfehlen (Psy-Changeling-Series, beginnend mit dem tollen Buch "Slave to Sensation (Psy/Changeling)" bzw. "Leopardenblut").

Kurzbeschreibung In the first book of her erotic new series, Lora Leigh invites you to an intriguing world where genetically altered Breeds and the humans who created them commingle and sometimes cross the boundaries of desire. Cursed with the extraordinary power to feel other peoples emotions, Megan Fields has tucked herself away in a remote corner of New Mexico, working as a small-town sheriffs deputy. She finds solace in the silence and heat of the desert. But when Breeds begin dying on her watch, Megan realizes that the secrets from her past cant stay buried forever. Someone is out for blood her blood. An arrogant Feline Breed, Braden Arness broods with feral intensity. His mission to solve the mysterious murders brings him to Megan, a woman who accosts his senses like no other. Only with him can she let down her guard and surrender to the insatiable hunger that wracks her body. But as they team up to hunt the elusive killers, Braden and Megan find themselves becoming the prey.
