**Von V.C. Andrews : Melody (Logan Family Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Melody (Logan Family Series):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. This needs to stop!Von Dream in ColorI hope the editors are reading this! whoever the ghostwriter is needs to get a new

plot. Before the story begins you can almost guess that an "evil" father or stepfather has committed incest or rape. The negative stereotypes of women also need to cease. Either she's beautiful and vain or she's beautiful and innocent, no in between. There are no plain and smart women, those women are always jealous and spiteful. No caring women who are strong enough to fight back and stand up to these evil men! Hardly any of the "heroines" go to college. I am tired of the brothers liking sisters and so forth. Really, people are tired of the same old bull! If the ghostwriter going to create an interesting plot, they should start with adding more diversity. Please make it more complex. What happened to the sad, but sweet endings, like the first second series? What happened to the heart wrenching storylines? The ones that just made you want to cry. And what happened to the plot that made you feel as though you were witnessing these events? The mystery and fire is no more. Flowers in the Attic was breath-taking because it broke new ground, and it had twists and turns. It was not sophomoric like this novel and the terrible Wildflowers series. All the novels after Dawn, have become to much of a formula. The only reason I read these books anymore is the hope that they will get better.

Von Ein Kunde Growing up in a small town, Melody had always led a sheltered life. She and her father were very close. Whenever she had a problem or a question, he would stop what he was doing and talk to Melody. Sure her mother was around, but not very often. If she was not working, she was out parting with friends. One day Melody's life took a turn for the worse. When she arrived home from school to find her mother at home. Her mother was sitting on the couch bawling. Struck with confusion, Melody ran to her mother's side with questioning eyes. Her mother told Melody that her father was under ground mining when the tunnel collapsed and he was killed. His death would change Melody's life forever. Melody's mother did not know what to do. She wanted to go to L.A. and pursue an modeling/acting career. She told Melody that they were going to visit her father's family in Provincetown. Melody had never meet her dad's family because they had a fall out right before Melody was born. When they arrived in Provincetown, her mother stunned Melody. She told Melody that she was to stay here and live with her dad's brother, her Uncle Jacob. With her mother gone, Melody was forced to live in Jacob's house, in his dead daughter, Laura's room. Laura's twin brother Cary was down right mean to Melody from the start. Cary's deaf sister May absolutely loved Melody from the start. Melody's grandmother was an old bat. She was mean to every one and made them live, talk and act how she sees right. While living in Provincetown, Melody discovered her whole life back home was a lie. V.C. Andrews' book Melody is a page turner throughout. One startling event leads to another. With romance, mystery and drama, this book will keep you up till all hours of the night. You will feel like you are right next to Melody living her life with her. You will feel sorry for during the sad parts of the book and happy for Melody during the exciting time. If you are looking for an absolute magnificent book to read I recommend Melody to any and every one.

Von Ein Kunde Can you imagine growing up with only your father and mother as the only relatives you have ever known? Well, in V.C. Andrews novel Melody, that is what happens to the main character. Melody, the main character, loses her father in a mining accident. Right after the funeral Melody's mother decided to pack up and move. What Melody doesn't know is that her mother wants to leave Melody with her aunt and uncle whom she has never met. Melody is not happy about leaving her friends behind, but she goes on and moves with her mother. While Melody is living with her aunt and uncle, she begins to wonder why they have not kept in contact with her father and mother. Melody also begins to question why they don't want her to ever mention her father's name. When Melody finds out the answer, she is not happy with it. But can she live with responsibility? This novel is a pleasure to read. It makes one wonder how much they really know about their families. It also teaches you to never judge anyone because sometimes you don't always know the whole story. I think that anyone who enjoys Andrews' books should read this one. It would help if the reader is a little mature about some aspects of life.

Kurzbeschreibung Melody Logan knew her beautiful mother, Haille, was unhappy in their hardscrabble mining town....But with her wonderful father's unwavering love, Melody always felt safe -- until a dreadful mine accident ripped her from her family's moorings. She was still devastated by her father's death when she left West Virginia with Haille to follow her mother's dream of becoming a model or actress. But first they stopped in Cape Cod to visit her father's family at last. Melody knew only that her grandparents had disowned their son when he married Haille -- just because she was an orphan, her mother said. Yet moments after Melody first laid eyes on dour, Bible-spouting Uncle Jacob, nervous Aunt Sara, and her cousins -- handsome Cary, whose twin, Laura, had been killed recently in a sailing accident, and sweet, deaf little May -- Haille announced that Melody was to live with them. Sleeping in Laura's old room, Melody was awash in a sea of grief and confusion, with only her beloved fiddle to comfort her. Then Cary revealed the truth he'd gleaned about her parents -- a sad shocking story that only puzzled her more. Melody knew nothing of the dark deceptions that would soon surface...the devastating betrayals she would face before she glimpsed the faint, beckoning lights of a safe harbor....
