Von Joanna Wayne : Memories at Midnight (The McCord Family Countdown) before purchasing it in order to gage whether or not it would be worth my time, and all praised Memories at Midnight (The McCord Family Countdown):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Highly entertaining relationship drama and mysteryVon Penny Griffin, Intrigue FanJoanna Wayne gives the McCord saga a boost in her latest Intrigue, "Memories at Midnight." An FBI agent has returned to her hometown at the urging of her mentor, only to wind up in the middle of an attack that leaves her with amnesia and her mentor mysteriously missing. She's forced to turn to the town sheriff, with whom she had a relationship she can't remember, and who has more than a few secrets of his own.A page-turner to keep you up all night, "Memories" is an able blending of past and present, love and danger, that shouldn't fail to capture any reader. Clint and Darlene's previous love affair is intertwined with

their current flirtation very effectively, making it clear this is a couple with a future. The tangled web of relationships between everyone involved adds another layer to the tale, although the impact of Wayne's story is diminished somewhat through Harlequin's atrocious decision to spell out the relationship between Clint and McCord in all of the ads for "The McCord Family Countdown," when she keeps it a studied secret through much of the book. Still, there's enough danger and action, as well as a complex mystery, to overshadow that minor annoyance. Unlike so many books, it's refreshing to see one set in the two weeks before Christmas that barely mentions the holiday. (Not surprisingly, the characters have better things to do). And how's this for a Christmas present: next year will finally bring the sequels to "Family Ties" (still my choice for her best book) when Wayne offers a new trilogy about the Randolph family in the summer. If they're as good as this, her fans will be waiting on pins and needles until they arrive. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Top notch romantic suspense from a master storyteller. Von Beth C In Memories at Midnight, Joanna Wayne blends thrilling mystery and heart-tugging romance to create another page turner! Her characters are complex and involving. I felt their frustration, shared their pain, and most importantly, fell in love with them! Add this one to your collection! 0 von 0 Kunden fanden die folgende Rezension hilfreich. MEMORIES AT MIDNIGHT Von Renee Joanna Wayne's books are the best. Great stocking stuffer for this Christmas. If you want a book that's packed with suspense, then this is your book. It's a seat of the pants read you'll really enjoy. Keep up the good work, Joanna. Renee

Kurzbeschreibung THE McCORD FAMILY COUNTDOWN A daughter, a son, a secret With time as the enemy, only love can save them! He was a lawman first and a man second. Which one found Darlene Remington injured, dazed and with amnesia on an isolated back road? Six years ago she'd been a heartbeat away from marrying Sheriff Clint Richards now she couldn't even remember him. All she knew was that someone had ambushed her and Senator McCord and left her for dead. Darlene didn't need memories to fall in love with Clint; the man oozed power and masculinity. But Clint had two Texas-size problems: He had a killer loose in his town and Darlene back in his bed. Before he could claim her this time, he had to protect her and that was becoming more and more dangerous with each moment she couldn't remember.
