Excellent Charlie Parker mysteryVon Ein KundeWhen Charlie Parker was a teenager her parents died in a plane crash. Being spoiled and preoccupied with her prom, Charlie thought they were going on a vacation. However, years later Charlie learns that her parents were actually going on a business trip sponsored by her father's employer the Scandia Corporation. Instead of pilot error or mechanical failure, Charlie finds out that a bomb blew up her parent's plane. Scandia Corporation squashed the investigation.Charlie feels the need to learn why her parents were murdered. Obsessed by the incident, Charlie reacts the way she always acts when she needs to know something. She starts her own investigation. She begins with her father's ex-secretary, who sends her to a possible informant. However, before they meet, an assassin murders Charlie's pigeon. Someone ransacks Charlie's office and Hannah's home seeking information they believe Charlie possesses. In spite of the increasing danger, the tenacious Charlie continues her inquiries wondering what the unknown assailants think she owns.The fifth Charlie Parker mystery is the best of the series as the story line combines an emotional look inside Charlie with a well-designed who-done-it. Charlie's romance with her live-in lover helps relieve some of the growing tension surfaced by her investigation. MEMORIES CAN BE MURDER demonstrates Connie Shelton's talent as the audience will find a night with Charlie is an exciting evening.0 von 0 Kunden fanden die folgende Rezension hilfreich. Engrossing but predictableVon Mystery LoverI found MEMORIES CAN BE MURDER to be an engrossing but predictable story. Charlie Parker (not to be confused with Charlie Plato of CHAPS created by Meg Chittenden), 30-ish and newly engaged, is hesitant to set a wedding date to fiance Drake as they have only known each other a short time. However, Charlie and Drake have agreed to live together, and he is in the process of moving from Hawaii to Charlie's home in Albuquerque. While making room for Drake's things, Charlie discovers several boxes of her father's papers in the attic, which cause her to relive old memories of her parents who died in a plane crash.Charlie learns she didn't comprehend much at the time of their deaths, and she starts investigating. It soon becomes obvious that someone has something to hide, as much of the information regarding the plane crash has disappeared. What's more, someone who has info to give to Charlie is killed right in front of her eyes.While engrossing, much of the plot is predictable. As soon as Charlie took her father's boxes of papers next door to spread out in a neighbor's empty room, I just knew that something was going to happen to Charlie's house. I kept cringing at the end of each chapter, expecting her house to blow up with her fiance in it. So when the expected did happen, it was nice to find that no one was killed after all. Also predictable was the bad guy's identity, which eliminated much of the suspense.In spite of the predictability, I very much enjoyed watching Charlie's relationship with Drake develop. I'm looking forward to the next book in this series.0 von 0 Kunden fanden die folgende Rezension hilfreich. I don't think this is the Charlie Parker that play bebopVon Ein KundeI couldn't find anything about bebop or saxophone playing in this at all. Not much about Dizzy Gillespie and Bud Powell, either.

KurzbeschreibungCharlie Parker has no idea, when she begins organizing storage space for her fiance's move-in, that simply moving boxes in the attic will throw her back in time to the events leading up to her parents' fatal plane crash. Drake will arrive in a few days and, with the help of her sidekick hound, Charlie is making room to combine their two households.But the dusty attic holds more than just memories. In her father's small leather notebook is a cryptic message that translates into danger for Charlie as she discovers that his top secret work as a scientist at Sandia Labs during the Cold War years still has certain people worried. And Charlie's poking about in dark secrets may well lead to disaster.Here's what others have said about Connie Shelton's USA Today bestselling series:"Charlie is...just what readers want in an amateur sleuth." -- Booklist"Tension is fast paced..." -- Bookwatch"A well written by-the-book who done it that will enthrall purists." --Midwest Book "Memorable details and an edgy, paranoid atmosphere." -- Booklist* * *Connie Shelton is the USA Today bestselling author of more than two dozen mysteries. Her Charlie Parker series is based in Albuquerque, and her new Samantha Sweet series is set in the northern New Mexico town of Taos.
