Third book in a trilogy about a beautiful and inspiring love story 5 starsVon SelmaThe doctors could manage to save Selene but she is now in a coma. Remington is at her side talking to her and encouraging her to wake up. He feels guilty for not being able to keep her safe. One person after another arrives at the hospital to visit Selene. Among them Estelle,

Remington's mother and Marley, Selene's younger sister. Eventually Selene wakes up from coma, confused and a little frightened. She doesn't recognize Remington. Shortly after she starts having flashbacks and her memory is slowly coming back. In the meantime Remington has left for London because his half-brother Caleb is in need of a kidney transplant and he is his donor. Despite all the precautions that have been made at the hospital an unforeseen incident happens which nearly kills Selene. Remington doubles the effort to identify the culprit before anything else can happen to his woman. He finds out who the person behind all these actions is, which shakes him to his core. He decides to keep this knowledge to himself in order to protect Selene. He realizes that he can't imagine his and Adriens future without Selene and that he desperately wants her to stay with them. Does Selene feel the same way? Has she made a decision to stay in Paris or go back to New York? Who is the dangerous stalker? What is going to happen next? In order to find this out you need to read this amazing book!The ending to this wonderful story was beautiful and heartbreaking at the same time. I loved it!Selene Michaels is a heroine who I loved and admired very much. The way she has coped with everything that happened to her was very courageous. Im so happy that she is a woman with curves. Im sick of the skinny, long-legged size zero heroines. Autumn Grey has delivered a very important message here to all the female readers: Love your body and be proud of it!Remington St. Germain has charmed his way into my heart as one of my favorite book heroes. Who wouldn't be crazy about a man saying: I will love you like no man has ever loved you. I will cherish and spoil you and do things that will only make you love me harder. Remington is the kind of man Im looking for. He is an amazing son, brother, father and boyfriend. I loved reading his POV and experiencing his lust and love for Selene.And dear god, Adrien! This cute little dude stole my heart from the beginning. His interactions with Remington and Selene brought tears to my eyes several times and made me laugh out loud as well. What an intelligent and perceptive child!After finishing reading this trilogy I can surely say that Autumn Grey is a very talented author. You have a new fangirl now Autumn! Im looking forward to read more of your books in the future!0 von 0 Kunden fanden die folgende Rezension hilfreich. A beautiful ending to an amazing seriesVon SejlaMend picks up right where we were left in Obliterate: Selene is in hospital recovering from the attack while Remington is doing everything in his power to find the stalker and keep Selene and his son safe.Despite all his effort an unforeseen incident happens which almost kills Selene. This poor woman couldn't catch a breath!Remington is in shock after discovering the stalkers identity, who is a person from his past he never expected to see againLet me tell you that I adore this entire series and especially the ending.Remingtons and Selenes love for each is overwhelming and their chemistry palpable.With Selene Autumn Grey created a loveable, strong female character that is proud of her curves and isn't afraid to show them. The message of the book to all the young women out there is clear: Be brave, be you!Remington is a sexy, confident alpha male who is caring and not afraid to show his affection openly. I love this most about him!Thank you Autumn Grey for giving us Remington and Selene!

The clock is ticking, and Remington is competing against time to save the woman who is fast becoming a part of his soul.But what happens after that?
