Von Alan Dean Foster : Mid-Flinx (Adventures of Pip Flinx) before purchasing it in order to gage whether or not it would be worth my time, and all praised Mid-Flinx (Adventures of Pip Flinx):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. A tale of

Flinx and continuing tale of the commonwealth
Von Ein Kunde
In a sequel of the Flinx and Commonwealth books, we find Flinx and Pip fleeing from a would-be kidnapper and landing on the jungle planet of Midworld. This book came as rather a disappointment to followers of the Flinx saga as hinted in chronology set forth in "Flinx in Flux". Not only do we not find out Flinx's "purpose" but this seems to be a rehash of "Midworld". As a rabid Foster fan, I really wanted this to be a continuation, rather than a sidestep in this series. But it still holds all the good qualities of Foster's works and should be included in your ADF library.
1 von 1 Kunden fanden die folgende Rezension hilfreich. The return of Flinx and Pip
Von Anita C. Alan Dean Foster uses the background of his previous novel, Midworld, to set up Flinx and Pip's latest adventure. While I found the book hard to put down (at least in the middle of the story), I was disappointed by the ending, and by the dropped hints about the next work to come (I am assuming there is another adventure in the works).

Von Ein Kunde
I love all of foster's pip-and-flinx book's and am waiting fro the next. There are still a lot of unanswered questions fro all of his books that I wish he qwould answer. If anyone has heardf of qa new Flinx book please tell me???

Kurzbeschreibung
OVER THE EDGE
Where Flinx and his flying minidrag Pip went, trouble always followed--that law had governed their lives through years of unsought danger and galactic intrigue. Now an evil rich man was out to kidnap the minidrag for his personal zoo, and Flinx and Pip were on the run again--this time into uncharted space, on a random course they hoped would foil their pursuers. They found more than they bargained for when they landed on Midworld, a verdant planet covered by an immense jungle, hosting an incredible variety of plant and animal life--all of it unknown and all of it deadly. And now they were in real trouble. Their hiding place was in danger of discovery, and their only hope lay with this bizarre and untamed planet . . . if it didn't kill them first!
From the Paperback edition.
From Booklist
The spawn of sophisticated alien bioengineering experiments, Foster's series hero Philip Lynx--Flinx for short--is 20 in his seventh adventure, and his empathic abilities and poison-spitting pet snake, Pip, continue to land him in trouble. Touring the planet Samstead, Flinx crosses paths with a bullying aristocrat who insists on acquiring Pip for his menagerie. Using his own precocious wits as well as Pip's deadly fighting prowess, Flinx narrowly escapes to the safety of his orbiting spaceship and flees into uncharted space. He makes a haphazard landing on an unknown world almost completely enveloped by luxuriant rain forest and forges a bond there with the human descendants of a lost expedition. He adapts to the marvels of his new environment until his persistent enemy catches up with him. The prodigiously productive Foster has honed his narrative style until it is so consistently absorbing that newcomers to the Flinx saga will search out earlier installments, and both they and seasoned fans will be gratified by Foster's hints of more to come.
