knenn. Sehr nett geschriebene Kurzgeschichte über einen Laktationsfetisch. Amsant formuliert, gut geeignet für eine entspannte Unterhaltung, wenn man mal was in einem Rutsch durchlesen will. Empfehlenswert.

Kurzbeschreibung Esmeralda Greene returns to the topic of sex-play with breast milk in this "Greene Shorts" erotic short story. Kimberly is a new mother who finds that her husband isn't meeting her sexual needs, so she sets out to seduce Lyle, her best friend's husband. The first step is obvious: she invites him into the nursery where she's breastfeeding her daughter, so he can get a nice long look at her breasts, newly expanded and "firmly rounded" by their payload of milk. And when Kimberly shows up at Lyle's house the next day while his wife is at work, she soon makes her intentions clear. Lyle is helpless to resist, and what follows is a long, sizzling hot sexual encounter in which Kimberly's breasts and freely-flowing milk play a prominent role. Once the adulterous lovers are satiated for the moment, Kimberly decides that, out of consideration for her friend, she can't continue the affair. Will Lyle be able to find another way to satisfy his newly-found fetish for mother's milk? This story is included in "The Collected 'Greene Shorts' Volume 3"
