**Von Ashley Suzanne : Mirage: Book 1 (The Destined Series) (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mirage: Book 1 (The Destined Series) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Loved it Von Philomena (Cheekypee) What a story. Thrown in the deep end by a fantastic start to the story. This is a story about four friends. It's told by two characters points of view. I gotta admit I did gasp a few times at the way the story

went. However I was totally shocked at the twist near the end of the story. I was gob-smacked!!! Of course I'm not gonna tell you it. That would ruin it for you. Grab a copy of this get reading. I'm now off to get lost into the second part of this series:) Received in return for an honest review.

**Kurzbeschreibung** During freshman orientation, two sets of best friends embark on an adventure together, forming life-long bonds. Entering the unknown as young adults, Mira, Kylee, Danny and Skylar face challenges all new college students encounter, as well as a few situations some people their age should never experience. Everything was going according to plan: Mira and Danny looking forward to their future as husband and wife, Kylee graduating with the job of her dreams and Skylar gaining acceptance into the motorcycle club he's loved since he was a boy. Then, tragedy strikes on graduation night, leaving only three of the core four to pick up the pieces. Just as Mira thinks she's getting her life back on track, it all spins out of control again. When feelings kept hidden under the surface come to light, she can no longer deny the connection she and Skylar share. What if everything you thought you knew was nothing more than a carefully constructed mirage?
