**Von Brent Lee Markee : Victor Deus (Heritage of the Blood Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Victor Deus (Heritage of the Blood Book 1) (English Edition):

Guter Start in eine neue ReiheVon TimoBuch hat mir gut gefallen.In der Welt von Victor Deus dreht sich im ersten Band alles um das Vermchtnis des Blutes der Bewohner des Kontinents Terroval. Auf diesem wchst Victor Deus heran, von Anfang gefhrt von mchtigen Personen/Wesen.Es bleibt aber noch viel Entwicklungspotential, da er am Ende gerade mal 8 Jahre alt ist.Und mit dem letzten Absatz brint Brent Lee Markee auch noch etwas Sience Fiction ins Spiel.Man kann also gespannt auf das 2te Buch warten, das laut Markee Ende dieses Anfang nchsten Jahres erscheinen soll (6

Monatsrythmus).1 von 1 Kunden fanden die folgende Rezension hilfreich. Intriguing plotVon Elmar SchumacherVictor, the hero of this book might be a little overplayed as being all wise and powerful but the book itself is well written and easy to read. It is a great start to a hopefully long series of books yet to come!1 von 2 Kunden fanden die folgende Rezension hilfreich. PackendVon puriHat Mir sehr gut gefallen. Jeder der Eddings oder Rothfuss mag, wird auch diesen Autor schtzen.Kaufempfehlung von mir. Der preis war fr die Lnge auch I.O

KurzbeschreibungEvery culture has its legends. Those men and women whose legacies were so great that their stories have been repeated generation to generation. A person of such impact that other cultures long detached from the origins tell stories of these powerful individuals. Such is the story of Victor Deus. Unlike many such legends, there was little need to embellish the deeds he and his allies accomplished. Some remember him as a savior, some as a tyrant. There are whole worlds that worship him like a god, and others that raise him up as a devil. All of these worlds agree upon one thing though, he was fiercely protective of his allies, and swiftly dealt with his enemies. How does one become such a figure? Loved by so many, yet feared by even more? The story is a long one, and I hope you will bear with me as the story unfolds. One thing you must know about Victor Deus is that he was not given time to be a child, for his formative years were full of training and despair. Therefore, it is there where this story begins, a boy, barely able to hold a sword, thrust into events he cannot control. Victor Deus (Heritage of the Blood: Book One) is the first book in a series of books that follow Victor Deus and his ally's through an epic fantasy journey that will span many worlds and genres. The initial Arc will be three to four books long and will be a coming of age story for the main protagonists. Although I am starting with Victor at a young age, this will not be a young adult series. I have no plans for gratuitous sex or violence, but there will be war, and all that goes along with it.\*Latest edition uploaded 6/10/16 update the book by managing digital content from your .com account.Heritage of the Blood: Book Two is now available!Books in the Heritage of the Blood Series:Victor Deus - Meet the main characters of the story Victor and Shawnrik, and learn about the world that they must grow up in. Vitiosi Dei - War has once again ravaged Terroval. Victor and Shawnrik find themselves apart, and in very different circumstances than they ever thought they would be in. Events are transpiring across the face of Terrazil and beyond, and they are not patient enough to wait for our heroes to grow up.Book Three(2017) - Just as one of our heroes worlds is starting to reform the others begins to fall apart.KurzbeschreibungEvery culture has its legends. He has moved over thirty times in his life, but has come to rest(for now) in Anaconda, MT where he spent several of his younger years. As a kid he was very interested in Dinosaurs and Mythology, which probably had a hand in his later developed love of Fantasy and character driven Science Fiction. After High School he joined Job Corps and learned how to be a chef. It didn't take long for him to realize that he was not inclined towards the profession(physically, mentally, or emotionally). It was not all a loss however, as he picked up very valuable cooking skills, and also developed a greater love of fantasy during this time. Shortly after finishing his training he decided to try his hand at college, but due to circumstances beyond his control he lost his funding and had to go out into the world. Right around his twenty first birthday he found out that the Depression he had been dealing with for the majority of his life was not what everyone else had to deal with. After a

lot of internal fighting, trying several different medications, and figuring out that laughter was indeed the best medicine he has come to a truce with his brain. He started writing during his first term in college; finally got around to finishing his first book in 2008 shortly before his father developed lung cancer and passed away. Several years were spent after that trying to figure out what he was going to be when he grew up, before finally deciding that he was happiest when reading and writing. In late 2013 he pulled up his files for the book he had written and began the laborious process of editing his younger selves work. Now he spends his time trying to figure out how to write his Author Bio in the third person. As to what the future holds, we'll see!
