Von M.K. McDonald : Voyeur (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Voyeur (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Surprisingly good Von Sasasecret Bei Kindle unlimited wei man oftmals nicht, was man sich einhandelt. Aber diese Geschichte ist gut und flssig geschrieben, die Geheimnisse der beiden Protagonisten ziehen sich spannend durchs Buch. Der Titel ist allerdings etwas irrefhrend und soooo viel Sex gibt es auch nicht, braucht's aber auch nicht. Endet

mit einem gleichnamiger, der einen möglichen nachfolgebänd offen lässt. All in all a surprisingly well written suspense.

KurzbeschreibungWhen Zoe follows her hot new boss to a club, she has no idea the impact it will have on her already disastrous life. On the run from a deadly past, Zoes world couldnt get any more complicated, at least until the rich and handsome Duncan Kincaid walks into it. Holding his fathers penis in her hand was certainly not the way she ever planned to meet the man of her dreams. But the man of her dreams has a past as dark and dangerous as hers and is just as keen to keep it secret. As the sexual chemistry and tension build, their pasts come rushing into the present and leave them both fighting for their lives. *Voyeur* is an erotic thriller with adult content throughout from a best selling thriller writer.
