Fantastic new seriesVon readerI love nearly all books by Nicole Edwards and this does not disappoint. You get suspense, romance and love in that order. Nicole Edwards introduces the characters of this new series one after the other and

often explains their relationship, so the reader does not get confused. When I switched back to the beginning I found that she has included a summary of the families, thanks a lot for that. So when you click on the downloaded book it will start with the prologue, instead of reading back some pages and get familiar with the characters. Marissa is a political online-blogger and nearly uncovered some illegal business. After an attempted kidnapping she goes into hiding procured by her family's security business. Unfortunately one of the agents is a mole and that is where the action begins. When you think everything is revealed the big showdown brings some surprises. Great epilogue.

Kurzbeschreibung Trace Kogan will go to any length to protect those who need protecting. That is the business he is in; the business his father, Casper Kogan, started with Bryce Trexler more than thirty-five years ago. Trace spends day and night eliminating threats to clients, so when the danger hits too close to home, he won't let anything come between him and the woman who desperately needs his help. His fear the physical reaction he has to Marissa may pose a bigger danger than the ghost that they find themselves up against. Marissa Trexler has spent the last twelve months of her life in hiding, tucked away in one safe house after another for her own protection. The threat to her is real even if the reason is still unknown. Strangely, whoever is after her seems to find her no matter where she goes, leading her family to believe it's an inside job. So when the decision is made that Trace will provide personal protection, she can't say no, even if being close to him adds another level of danger and this one is to her heart.
