KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not badVon H. PaulsenIf you, like me, find it a bit annoying when vampires are basically perfect super beings then I have to tell you they are in this book. The following is of course a setting SPOILER:No real sunlight weakness, don't ever

sleep, don't breath, need progressively less to eat when they get older, bloodlust but it is controllable when you aren't a new vamp, super sturdy, the usual super strength and speed, can still eat human food (it is useless but means they can easily blend in though I guess you could tell from their low body temp and maybe because the change also makes them look much hotter.) Also super senses and their minds seem to work better as well. Very vamp glorifying and with vamps so perfect they would have spread long ago and ruled everything, if most vamps didn't want that for some reason there would have been at least one vamp who decided to build an army of vamp super soldiers. SPOILER end. Anyway it is not badly written, decent choice if you want a lesbian vamp romance but don't expect anything too special. 0 von 0 Kunden fanden die folgende Rezension hilfreich. genial Von Astrid Ich bin nur durch Zufall auf dieses Buch gestossen- und ich bin begeistert. Es ist super geschrieben- und fr die Genre kann es absolut mithalten. Ich habe soeben den zweiten Teil gelesen- dieses Buch war noch besser und jetzt gehe ich zum dritten Teil Fr den Preis einfach unschlagbar. ich bin froh auf die Autorin gestossen zu sein.
