Lori Foster has written a charmer..!Von Ein KundeWANTON, the sequel to the exciting BEGUILED is a blazing romantic suspense starring two enchanting characters. The sparks between Celia and Alec first surface in the previous novel, but

turns into an inferno in this tale. The story line is entertaining, as sub-genre fans will relish the antics of the lead protagonists. Lori Foster has written a charmer that will send the audience seeking her other works, especially BEGUILED. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Before you listen to other opinions, think again... Von Ein Kunde They say opinions vary, but boy are those off the mark! WANTON was an excellent book. Full of emotion, tension, and HEAT. And characterization--These people were more real than half my neighbors. I liked this book enough to give it my Reviewer's Choice award. Kurzbeschreibung Constant Craving Private Investigator Alec Sharpe wanted to keep Celia Carter safe. He also just plain WANTED her. But Celia had some crazy ideas first that she could conduct a risky investigation all by herself, and second that she could ignore the sizzling attraction between them. Celia soon realized, to her dismay, that she needed help with the case from the dark and dangerously sexy Alec. He took full advantage of the situation, proposing a deal. For as long as he was helping her out, she would give in to the craving that was driving them both to distraction. But what would happen once the case was solved? Autorenkommentar shares a blurb of WANTON This is a take-off with secondary characters from BEGUILED, the 4th book in the Harlequin anniversary collection (paired with Jayne Ann Krentz's THE PRIVATE EYE). Alec Sharpe is the baddest bad boy of them all. He deserves his own book, and a woman who could match his strength... and his passion. Private Investigator Alec Sharpe is used to being in charge. After all, he's very good at everything he does. So why is it Celia Carter thinks she can call all the shots, while keeping him an arms length away? You got it she can't! Keep him away that is.
