Directionless romance Von Helen Hancox 'Wanton' is the second book in Noelle Mack's series about the Pack of St James, a group of Russian werewolves who are living in Regency London and whose males are cutting a streak through society. The previous book, 'Wild', I found rather uneven and unfortunately the same has to be said of this

book. When Marko Taruskin meets the beautiful Severin he is instantly attracted to her. However their romance is rather short-lived when the Pack discover that young women with links to the Pack are being murdered. The Pack agree that men should leave women alone for the time being whilst they investigate so Marko has to leave Severin. However Severin's sister Jehane may know more about the murders and she and Severin, in investigating them, may find themselves in danger. The overall plot was reasonable with various hints about who might be responsible for the murders. The story is told from several different viewpoints and it wasn't always easy to remember who knew what - Marko and Severin keep a lot of stuff to themselves. What was disappointing was the rather disjoint way in which the story moved, the fact that the romance seemed a very minor part of the overall plot and was more based on lust than anything further, and that none of the characters really grew or changed through the story. It felt like we were reading a series of events, some of which are built up and then dropped again. The wolf aspect of the story is vanishingly small - it seems almost a pointless inclusion in the overall plot as so little is made of it, and the various other supernatural moments, including the ghost of a wolf who died in the previous book, didn't really add anything to it. This wasn't a boring book but it was, unfortunately, rather unsatisfying. This reader would have appreciated more characterisation to give it a rounded feel and less general waffle. Kurzbeschreibung Kyril. Marko. Semyon. Brothers like no other, sharing an ancient blood bond and descent from Russian wolves. Sworn to lead the Pack of St. James and defend the English crown, their seductive charm is legendary among the women of London. But no one knows of the supernatural powers that raise them far above the ranks of mortal men. In WANTED, the second book of her compelling trilogy, Noelle Mack presents Marko's story. . . A Dangerous Pleasure In the year 1816, the Pack of St. James meets in secret in their London lair. An unknown assailant has begun to prey upon the women who consort with the men of the Pack--two have already died in mysterious ways and a poisoned communication threatens still more. With Kyril Taruskin and his love Vivienne away in the far north, attending to the clan's business in the Russian port of Archangel, his brother Marko begins to investigate--and finds the trail leads to a scandalous beauty known only as Severin. One of the victims was Severin's half-sister, but that alone is not enough to explain her intimate knowledge of the strange case. Well aware how a clever woman can hide more than she reveals, Marko employs all his powers of sensual persuasion, barely able to resist the allure of her amber eyes and softly seductive voice. He has never been outwitted by a woman. But Severin is different from all the rest--very different--and loving her is a dangerous game indeed. . . Praise for Noelle Mack and her novels. . . "A sexy romp on the wild side. A true page-turner." --Romantic Times on Nights In Black Satin a Top Pick! 4 -star review "Hot sex. . . sizzling and innovative." --Romantic Times on Juicy, a Top Pick! 4 -star review "A truly sensual story that will titillate and captivate." --Romantic Times, four-star review of Three
