My Score: 4 I have to say I'm amazed of Ms. Lace's phenomenal writing. As this is the first book that I've read from her I have no complaints, it kept me going at the edge of my seat many times. I really couldn't put the book down I wanted to finish it and find out. Hey you have to read it to find out, I'm not telling you! I would recommend this book in a heartbeat it is off the charts, with a very strong heroine and extraordinary characters. Ashlyn O'Connor was the seamstress on Earth, she worked hard many hours a day, to pay the mortgage and bills, only to go home clean, make dinner, so her brothers could finish high school. Ashlyn gave up her full paid scholarship to be an environmental scientist when her mother suddenly got sick and a month later she died, leaving the responsibility to Ashlyn. But sometimes things happen that beyond your means giving you no choice but to make sacrifices for your family. So Ashlyn went to TerraMates mail order bride agency. Nathaniel Lachlan aka: Nat is an Alien from the planet Vandwa, he was a Famous Scientist with a PhD and came from a rich family. He really could be set for life, he had many things but no spending credits (which is what they call money). As supplies for the refugees were being taken away by a ship, consequently leaving Nat no choice, he had to resort to piracy to help the poor. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung Why would I want to be married to an alien? I should not have applied to TerraMates! The idea was crazy. I'm a young woman, in the prime of my life. But I was desperate. When I landed on another world, his appearance intrigued me. He dripped sexuality and moved like an animal. We have three days together before he sets sail without me. Am I going to escape or submit to my desires?
