Enjoyable and Funny Von Eva At the end of the first book in the series, Melly was safe in the dragons homeland after being rescued from the blood mages. A healer had healed Mellys physical injuries and taken away the memories of her captivity. Now, those memories are coming back in the shape of nightmares, and Melly is convinced that one of the blood mages survived and is still looking for her to steal her powers. Together with dragon general Solan Fire-Eater she sets out to find the evil mage and take care of him once and for all. On their journey, they have to travel through hostile areas, make new friends and allies, as well as new enemies. I thoroughly enjoyed this book. It has all the things I like about a romance a likable heroine, hot alpha hero, quirky secondary characters, a nice amount of humor, interesting world building, and an intriguing storyline. Also, lets not forget the dragons and swords and quest lots of fun stuff. The action moves quickly, and while the storyline isnt overly complicated, it kept my interest. The focus of the story is definitely on the romance and on the characters relationships. I especially enjoyed the humor several scenes had me chuckling. In some places, I would have liked to know more about the backstory of certain characters and happenings. The narration skims over a few things that would have added depth to the story. This book is a good deal longer than the first book in the series, and the writing is much more polished. There were a number of editing/typo issues, but it wasnt overwhelming. Overall, this was a very enjoyable book. Its a romantic and lighthearted read thats great for the beach or a rainy day at home.

Kurzbeschreibung The Dragon's thought they had ended the blood mage threat once and for all, but Melisande is still dreaming of death and blood, and when she is harmed by what should only be a dream, they take action. Now on a quest with the formidable General Solan Fire-Eater, Commander of the Dragon Knights, she must face her darkest fears, and the blood mage who once tortured her and marked her as his mate. If she cannot end his reign of terror, she could lose the dragon warrior who might just be everything she needs. This is the second book in the Dragon Mage Series. It can be read as a stand alone, but it is recommended that you read them in order. The first book in the series is "The Dragon's Mage." This is a dragon shape-shifter fantasy ROMANCE with elements of sword and sorcery. Not intended for readers under the age of 18, as there is mature content.
