Von K An Kennon : Welcome to Valkyria (Daughters of Freyja Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Welcome to Valkyria (Daughters of Freyja

Book 1) (English Edition):

Kurzbeschreibung When my best friend Judy convinced me to go with her on vacation to an island somewhere in the Bermuda Triangle that I had never heard of before, I was apprehensive. Okay, now let me get this straight this island is ruled by women, men are treated like second-class citizens and have few rights, and nudity is not only common, its outright expected in some places? Even then, little did I expect to get almost all of my clothes confiscated at customs while everyone simply assumes that Judy and I are a lesbian couple and a mysterious yet jaw-droppingly gorgeous woman gives me a golden apple, tells me something cryptic, and then disappears. Now Im involved in some secret underground conspiracy involving a ruthless male-led insurgency that wants to overthrow the government and both me and that apple lady are involved somehow. Cant I just go back to having lots and lots of sex again? If there is one thing we never seem to learn as humans, its beware of hot naked women that try to give you apples! ___ Author's note: This 125,000 word book is hopefully unlike any erotica you have ever read before. There is sex, humor, fantasy/sci-fi elements, satire, allegory, and so much nudity that the entire wardrobe department can just go ahead and take a vacation. (We'll call you when we need you.) Did I mention sex? Oh, I should also let you know that there aren't very many penises in this story, so be aware that it contains an almost all-female cast. If you don't want plot getting in the way of your lesbian erotica, feel free to jump ahead to chapter [cubed root of seven hundred twenty nine]. So how do you know if you'll like this book or not? Idunn Frigg'n know, I'm a Freyja will have to read it to find out!
