Werewolf Romance Book 1) (English Edition):

Kurzbeschreibung Respected diplomat, or wet puppy? Young sir Mark Dechambier's first diplomatic mission isn't off to a good start when he decides to break tensions between a nation of alienated exiles and his own technologically advanced culture by leaping into the ocean - a decision which completely makes sense at the time. Fortunately for Mark, the mysterious and ultimately Lupine alpha male Kiv Morogne is on hand to have him fished out of the drink, dried off and dressed before anyone eats him. So begins Mark's diplomatic mission to the Lupine Isles. His goal is simple enough - obtain mining permissions. But matters quickly become complicated when Mark realizes that the inhabitants of the Lupine Isles are stoic, harsh and mysterious for a very good reason. They have a secret, a secret they'll do anything to protect. Before long, Mark's cultured and entirely homophobic habits are falling by the wayside as the passionate, bestial Lupine man teaches him necessary lessons about what it means to be human - and what it means to be something more. WEREPRINCE contains romantic interludes, erotic content and light
