Werewolves of New York: NathanielVon MicWell, the idea of this story is good. And since I'm a huge fan of wolf stories, I really likedreading it, but I'm giving this book only 3 stars because.....1. the idea was good but the whole

development of the story is too rushed...2. with a little bit more details and depths, this would have been a wonderful book...3. the credibility of the story and I do not mean the whole wolf thing ;)....I mean the fact of first sight, fellin love and head over heels getting married...woha...way too fast and not likely that a woman would do this.So that was a killer point for me..just way too smooth and no twist and turns. Even the little catching of the woman heart wastoo easy...here it is come take it. Ladies love to get swooned so...3 stars from me

Kurzbeschreibung WEREWOLVES OF NEW YORK: NATHANIEL: Michelle Nero is a smart, savvy, curvy brunette...and a very loyal friend. So loyal she tucks her wasted best friend into bed after a dreaded birthday. "I can walk home," she decides in the middle of the night in the dark, deserted streets of Downtown Manhattan. Bad idea, Michelle. Bad idea. Nathaniel Jacobs is cool, calm and hard to crack...until he follows a human female from a club and finds her attacked in an alley. No one must know werewolves are real, but his wolf takes the lead, and now Nathaniel can't stop thinking about the woman. Can he trust her with his secret, the one he's never told a human soul before? All Stand-Alones. Each city/state its own pack. Each wolf, his own story. NEW YORK: Nathaniel Eli Darik Dontae CHICAGO: Curragh (Curr-ahg) Howard Xavier CALIFORNIA: Calt vs. Red - The War Over One Woman (Erotica and Mnage MFM situations) Kurzbeschreibung WEREWOLVES OF NEW YORK: NATHANIEL: Michelle Nero is a smart, savvy, curvy brunette...and a very loyal friend. I was about five years old. Ever since, stories of love and redemption have always struck a cord in me." She's an actress and director, too, and currently lives in Atlanta, GA, where she loves the unpredictable weather patterns after living in Los Angeles for twenty years. "Last night a thunder storm, today 75 degrees, tomorrow snowflakes drifting in the night sky. Can't beat it."
