**Von Christopher Nuttall : When The Bough Breaks (The Empire's Corps Book 3) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised When The Bough Breaks (The Empire's Corps Book 3) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Third book of Empire's CorpsVon A.F.H. TintenkriegerThis is the third installment of the Empire's Corps series and it takes

us back to Earth and into the cesspool that is called the politics of the Empire. In this part we leave the Stalkers Stalkers behind and the story focuses on Belinda, a pathfinder marine. The Pathfinders are a special group, heavily modified for special force tasks and is more or less a real superhuman, due to gene splicing and implants. That this has its drawbacks, the story proves quickly, as Belinda takes on a mission that will change the history of mankind forever. No, I won't spoiler it for you! I was at first reluctant when I saw this isn't about Stalkers Stalkers anymore, since I really liked the marine action of the first two parts. I wasn't sure, if Nuttall gets this across as well. I shouldn't have worried though: This is a high-suspense, thoroughly immersive reading and you quickly find yourself deep in the story, unable to put the book down. There are still a couple of typos in the book, but really nothing bad. And to make all things good it returns the story arc back to the story we know at the end. What I still don't fully agree with are the moral lectures that Nuttall includes, these are pretty one-sided. If you manage to include them into the story as being part of THAT time instead of being the nowadays opinion of a somewhat cynical author you will be fine though. And really, I enjoy his galaxy too much to really care about his personal opinion(s).

Von Mara K. Nach den ersten beiden Bchern der Reihe kehrt Nuttall mit dieser Geschichte zur Erde zurck und beschreibt den Niedergang des groen Senates und der Erde. Das Grundgerst der Story ist im Grunde genommen Star Wars 1-3, blo dass es am Ende im Disaster endete und nicht mit einem neuen Imperium. Bser Senator erzeugt Katastrophe um durch Notstandsgesetze die Macht an sich zu reiern und alle Macht auf sich zu vereinen. Blo anstatt sich auf die politischen Rnkespielchen zu konzentrieren, konzentriert sich die Geschichte auf Marine Specialist Belinda und den Kronprinzen Roland, sowie auf studentische Revolutionre, die zum Spielball der Intrigen werden. Die Geschichte gelingt gut, vor allem da der Niedergang der Erde nur den Hintergrund fr das wachsen von kindlichen Kronprinzen ist. Leider ist noch nicht so ganz klar (ich bin selbst erst bei Buch 5 der Reihe), wie diese Geschichte in das groe ganze der Geschichte um das Commonwealth in Avalon reinspielen wird. Ich htte mir persnlich eher eine Fortsetzung der Hauptstory gewünscht, anstatt diesen Abweichler, auch wenn er mich in seinen Bann gezogen hat. Das grte Problem Nuttalls, seine politischen Ansichten extrem stark in den Vordergrund zu rcken, scheinen leider auch in diesem Buch durch. Das passiert in allen seinen Sci-Fi-Werken, die ich bisher von ihm gelesen habe (z.B. die Ark-Royal-Reihe). In seinen Fantasy-Werken kann er sich irgendwie besser zusammenreiern oder betreibt es subtiler (Schooled in Magic-Reihe).

Von Dr. Friedrich Goes Die professoralen Vorworte sind berflssig und ohne erkennbaren Zusammenhang mit dem Text

Das Englisch von Mr. Nuttall ist verbesserungswrdig und sollte im Zweifelsfall nicht ernst genommen werden, aber insgesamt passable Unterhaltung.

Kurzbeschreibung When the bough breaks, the cradle will fall, And down will come baby, cradle and all. The Galactic Empire is dying. In their high towers, the Grand Senators plot and struggle to grasp a larger share of power while on the streets, the poor struggle to survive just one more day. Chaos and anarchy are running through the megacities of Earth, while giant corporations tighten the screws and colony worlds plot to declare independence and escape the Empires increasing demands for resources. Centuries of mismanagement are finally catching up with the human race. The end cannot be long delayed. Specialist Belinda Lawson, a Marine Pathfinder who survived the fighting on Han, is assigned to serve as a bodyguard to the Childe Roland, the Heir to the Imperial Throne, and attempt to prepare him to be Emperor. But Roland is a puppet and a spoilt brat and, perhaps, the only hope of saving the Empire, if he can be redeemed in time. And yet, as shadowy figures prepare to make their final bid for apotheosis or nemesis it may be all she can do to keep her young charge alive.
